The child scrambles to capture the loose words and arrange them back into poem form, only to lose them again as a storm swoops in. Eventually, the words plant themselves in the muddy ground, growing into something that might be even better than the original poem: a Poet-Tree. A poem is never really lost. The words may just need a little room to play.

What Makes This Book So Great

Re-Reading the Classics of Science Fiction and Fantasy Tor Books

As any reader of Jo Walton's Among Others might guess, Walton is both an inveterate reader of SF and fantasy, and a chronic re-reader of books. In 2008, then-new science-fiction mega-site Tor.com asked Walton to blog regularly about her re-reading—about all kinds of older fantasy and SF, ranging from acknowledged classics, to guilty pleasures, to forgotten oddities and gems. These posts have consistently been among the most popular features of Tor.com. Now this volumes presents a selection of the best of them, ranging from short essays to long reassessments of some of the field's most ambitious series. Among Walton's many subjects here are the Zones of Thought novels of

Vernor Vinge; the question of what genre readers mean by "mainstream"; the underappreciated SF adventures of C. J. Cherryh; the field's many approaches to time travel; the masterful science fiction of Samuel R. Delany; Salman Rushdie's *Midnight's Children*; the early Hainish novels of Ursula K. Le Guin; and a Robert A. Heinlein novel you have most certainly never read. Over 130 essays in all, *What Makes This Book So Great* is an immensely readable, engaging collection of provocative, opinionated thoughts about past and present-day fantasy and science fiction, from one of our best writers. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Return to Nevèrÿon *Open Road Media*

Slavery is outlawed, Nevèrÿon is free, and Gorgik the Liberator must revisit the mines for a final struggle where he himself was once a slave Alone in a deserted castle in the Nevèrÿon countryside, a great warrior and a young barbarian meet at midnight to tell each other tales from their intersecting lives. But are they really alone? And, if they aren't, what will it mean for Nevèrÿon . . . ? The three stories in this volume end Samuel R. Delany's Return to Nevèrÿon saga and cycle. But they are also its beginning—taking us back to the start of Gorgik's epic—although, from what we've learned from the others, even that has become an entirely new story, though not a word in it has been changed . . . This ebook features an illustrated biography of Samuel R. Delany including rare images from his early career.

The Stars in Our Pockets

Getting Lost and Sometimes Found in the Digital Age *Beacon Press*

What shapes our sense of place, our sense of time, and our memory? How is technology changing the way we make sense of the world and of ourselves? Our screens offer us connection, especially now in the wake of the COVID-19 pandemic, but there are certain depths of connection our screens can't offer—to ourselves, to the natural world, and to each other. In this personal exploration of digital life's impact on how we see the world, Howard Axelrod marshals science, philosophy, art criticism, pop culture, and his own experience of returning from two years of living in solitude in northern Vermont. *The Stars in Our Pockets* is a timely reminder of the world around us and the worlds within us—and how, as alienated as we may sometimes feel, they were made for each other.

"Delany has a grasp of the evolutionary nature of mythology, a subtle comic touch, and a lyric sense of the outsider making his unorthodox way in the world--or worlds--that give his work a dimension unusual..."

Critical Theory and Science Fiction *Wesleyan University Press*

Carl Freedman traces the fundamental and mostly unexamined relationships between the discourses of science fiction and critical theory, arguing that science fiction is (or ought to be) a privileged genre for critical theory. He asserts that it is no accident that the upsurge of academic interest in science fiction since the 1970s coincides with the heyday of literary theory, and that likewise science fiction is one of the most theoretically informed areas of the literary profession. Extended readings of novels by five of the most important modern science fiction authors illustrate the affinity between science fiction and critical theory, in each case concentrating on one major novel that resonates with concerns proper to critical theory. Freedman's five readings are: Stanislaw Lem and the Structure of Cognition; The Dispossessed: Ursula LeGuin and the Ambiguities of Utopia; The Two of Them: Joanna Russ and the Violence of Gender; Stars in My Pocket Like Grains of Sand: Samuel Delany and the Dialectics of Difference; The Man in the High Castle: Philip K. Dick and the Construction of Realities.

Out of My Mind *Simon and Schuster*

Considered by many to be mentally retarded, a brilliant, impatient fifth-grader with cerebral palsy discovers a technological device that will allow her to speak for the first time.

The Novels of Samuel R. Delany Volume One

Babel-17, Nova, and Stars in My Pocket Like Grains of Sand *Open Road Media*

Three groundbreaking novels from the multiple Hugo and Nebula Award-winning Science Fiction and Fantasy Hall of Famer and SFWA Grand Master. Babel-17: Rydra Wong is the most popular poet in the five settled galaxies, capturing the mood of mankind after two decades of war. Now, a new weapon has been unleashed against humanity. Random attacks strike without warning, tied together by broadcast strings of sound. In that gibberish, Rydra recognizes a coherent language. To save her people, she must master this strange tongue, but the more she learns, the more she is tempted to join the other side, in this Nebula Award-winning novel. Nova: The year is 3172. Two political families—the Earth-based galactic conglomerate Draco and the Pleiades Federation of the Von Ray Clan—vie for ultimate power. Both want to control the market for Illyrion, the element that makes interstellar travel possible. When a star implodes, tons of the priceless fuel is discovered floating in the wreckage. Now, in a race to claim it, Lorq Von Ray leads a crew of ragtag misfits into the heart of a dangerous nova . . . Stars in My Pocket Like Grains of Sand: Subjected to the Radical Anxiety Termination procedure, Korga is transformed into a dim-witted slave. Now known as Rat, Korga serves many masters—until the Cultural Fugue, a critical mass of shared knowledge, destroys his homeworld. Marq Dyeth is an “industrial diplomat,” who travels between worlds solving problems that come with the spread of “General Information.” Brought together by the organization known as the Web, Rat and Marq find themselves manipulated by an entity determined to control the flow of information.

Tales of Nevèrÿon *Open Road Media*

Hugo and Nebula Award-winning author Samuel R. Delany's epic fantasy—the first in a series—explores power, gender, and the nature of civilization. A boy of the bustling, colorful docks of port Kolhari, during a political coup, fifteen-year-old Gorgik, once his parents are killed, is taken a slave and transported to the government obsidian mines at the foot of the Faltha mountains. When, in the savagely primitive land of Nevèrÿon, finally he wins his freedom, Gorgik is ready to lead a rebellion against the rulers of this barely civilized land. His is the through-story that, now in the background, now in the foreground, connects these first five stories, in *Tales of Nevèrÿon*—and, indeed, all the eleven stories, novellas, and novels that comprise Delany's epic fantasy series, *Return to Nevèrÿon*, where we can watch civilization first develop money, writing, labor, and that grounding of all civilizations since: capital itself. In these sagas of barbarism, new knowledge, and

sex, you'll find far more than in most sword-and-sorcery. They are an epic feat of language, an ironic analysis of the foundations of civilization, and a reminder that no weapon is more powerful than a well-honed legend. This “eminently readable and gorgeously entertaining” (The Washington Post Book World) novel reads “as if Umberto Eco had written about Conan the Barbarian” (USA Today). This ebook features an illustrated biography of Samuel R. Delany including rare images from his early career.

Dhalgren *Open Road Media*

Nebula Award Finalist: Reality unravels in a Midwestern town in this sci-fi epic by the acclaimed author of *Babel-17*. Includes a foreword by William Gibson. A young half-Native American known as the Kid has hitchhiked from Mexico to the midwestern city Bellona—only something is wrong there . . . In Bellona, the shattered city, a nameless cataclysm has left reality unhinged. Into this desperate metropolis steps the Kid, his fist wrapped in razor-sharp knives, to write, to love, to wound. So begins Dhalgren, Samuel R. Delany's masterwork, which in 1975 opened a new door for what science fiction could mean. A labyrinth of a novel, it raises questions about race, sexuality, identity, and art, but gives no easy answers, in a city that reshapes itself with each step you take . . . This ebook features an illustrated biography of Samuel R. Delany including rare images from his early career.

A Rocket in My Pocket

The Hipster's Guide to Rockabilly Music *Profile Books*

Rockabilly had its roots in country, blues, folk, hillbilly, R&B, boogie-woogie and most other indigenous Deep South forms of popular song that you could strum three chords along to or howl down a cheap microphone. It was young people's music, made almost entirely by the first wave of teenagers, despised by adults in general and the country music establishment in particular. Its pioneer exponent, Elvis, eventually become respectable in the eyes of straight society but he was the exception. 1950s rockabilly was a spontaneous outburst of spirited three-chord songs, tiny record labels, primitive studios, fiercely partisan audiences and wild-eyed, driven performers who weren't even sure that their musical careers would last the week. The book charts the rise (and fall) of the original 50s wave of rockabillies. It will also follow the progress of the music, in clubs, on radio, TV and film, pinpointing the key record labels and important regional centres, showing how fashions eventually changed and left rockabilly high and dry, far too wild and primitive in an era of smoother sounds. Dcharn traces the music to its Memphis roots.

The Hate U Give *HarperCollins*

Morris Award Winner · National Book Award Longlist · Printz Honor Book · Coretta Scott King Honor Book · #1 New York Times Bestseller! "Absolutely riveting!" —Jason Reynolds "Stunning." —John Green "This story is necessary. This story is important." —Kirkus (starred review) "Heartbreakingly topical." —Publishers Weekly (starred review) "A marvel of verisimilitude." —Booklist (starred review) "A powerful, in-your-face novel." —Horn Book (starred review) Sixteen-year-old Starr Carter moves between two worlds: the poor neighborhood where she lives and the fancy suburban prep school she attends. The uneasy balance between these worlds is shattered when Starr witnesses the fatal shooting of her childhood best friend Khalil at the hands of a police officer. Khalil was unarmed. Soon afterward, his death is a national headline. Some are calling him a thug, maybe even a drug dealer and a gangbanger.

Protesters are taking to the streets in Khalil’s name. Some cops and the local drug lord try to intimidate Starr and her family. What everyone wants to know is: what really went down that night? And the only person alive who can answer that is Starr. But what Starr does—or does not—say could upend her community. It could also endanger her life. Want more of Garden Heights? Stars in My Pocket Like Grains of Sand *Open Road Media*

In this far-future classic, sexual attraction is a science, gender is a whole new construct, and information is both precious and perilous . . . With a burst of radiation to the brain, an angry young man is transformed into a dim-witted slave—suitable only for the most brutal work. But the tragedy of Rat Korga is the prologue to the story of Marq Dyeth, an “industrial diplomat,” who travels from world to world in this exciting, sprawling future, solving problems that come with the spread of “General Information.” The greatest fear in this future is Cultural Fugue, a critical mass of shared knowledge that can destroy life over the surface of an entire world in hours. In this dizzyingly original novel, information is perilous, but without it a human is only a rat in a cage. Campbell Award winner Jo Walton described this science fiction landmark as being “like pop rocks for the brain. . . . Things sparkle and explode all over, and it’s not entirely comfortable but it is quite wonderful.” This classic read predicted the Internet and is packed with themes that still resonate today. This ebook features an illustrated biography of Samuel R. Delany including rare images from his early career.

Hogg *Open Road Media*

The narrator of Hogg is a Huck Finn-like youngster caught in society’s most sinister seams—but unlike Huck, he passes no moral judgments on the violence he takes part in . . . Hogg is the story of a man—a depraved trucker named Franklin Hargus, whom the people he works for call Hogg—and of the nameless boy who tells the story of three days of unspeakable sexual violence and devastation, which, together, they initiate in a small seaside American city in the middle of the last century. Hogg is a towering brute who makes his living as a rapist for hire. By the end of a series of vicious attacks, kidnappings, and mass murders, the reader will wonder who is more corrupt: the man or the boy. Samuel R. Delany completed his first draft of Hogg within a day, if not within hours, of the 1969 Stonewall Riots in New York City and revised it over the next four years, though it was not released until 1995.

Exile and Pride

Disability, Queerness, and Liberation *Duke University Press*

First published in 1999, the groundbreaking Exile and Pride is essential to the history and future of disability politics. Eli Clare's revelatory writing about his experiences as a white disabled genderqueer activist/writer established him as one of the leading writers on the intersections of queerness and disability and permanently changed the landscape of disability politics and queer liberation. With a poet's devotion to truth and an activist's demand for justice, Clare deftly unspools the multiple histories from which our ever-evolving sense of self unfolds. His essays weave together memoir, history, and political thinking to explore meanings and experiences of home: home as place, community, bodies, identity, and activism. Here readers will find an intersectional framework for understanding how we actually live with the daily hydraulics of oppression, power, and resistance. At the root of Clare's exploration of environmental destruction and capitalism, sexuality and institutional violence, gender and the body politic, is a call for social justice movements that are truly accessible to everyone. With heart and hammer, Exile and Pride pries open a window onto a world where our whole selves, in all their complexity, can be realized, loved, and embraced.

The Mad Man

Or, The Mysteries of Manhattan *Open Road Media*

A philosophy student's research draws him into the sexual underground of 1980s and early nineties New York John Marr is surprised he doesn't have AIDS. He has been having near-daily sexual encounters with strange men since before the dawn of HIV, but he remains healthy. His initiation began in the bathroom of the Staten Island Ferry Terminal, and since then he has found himself at home in the darkest corners of Manhattan's culture of anonymous gay sex. During the day, it is a different story, as Marr works on his graduate thesis—an analysis of the work of a brilliant 1970s philosopher who died mysteriously in one of the gay bars of Hell's Kitchen. As his research and his sex life begin to converge, Marr senses that if AIDS doesn't get him, something darker will. The Mad Man, which the author dubbed a “pornotopic fantasy,” is more than a powerful work of philosophical erotica; it is a snapshot of a vanished moment in New York City's gay history, when fear and lust commingled in a single powerful force.

Re-forming the Past

History, the Fantastic, and the Postmodern Slave Narrative *Ohio State University Press*

Classifies the postmodern slave narratives of Ishmael Reed, Octavia Butler, Toni Morrison, Charles Johnson, Jewelle Gomez, and Samuel Delaney under one conceptual framework--"re-forming" the past--and argues that their distinctly African American form of postmodern slave narrative forces the reader to question the ideologies set forth by earlier, "realistic" depictions of slavery.
