Download Time Calculator - Calculate Download time/speed

Email standards don't specify any sort of size limit. In practice, most email servers—and some email clients—enforce their own size limits. In general, when attaching files to an email, you can be reasonably sure that up to 10MB of attachments are okay. Some email servers may have smaller limits, but 10MB is generally the standard.

How to Send Large Files Over Email

How long time it will take depends on file size, your own download speed and the server's upload speed. In these calculations it is assumed that your download speed is the bottleneck. Input the file size and click on "Calculate". Then you will see the result for the different connection types to the right.

Download Time Calculator - calculate download time
