Integrative Therapies In Rehabilitation Evidence

The second part presents various therapies commonly integrated with allopathic therapies in rehabilitation - body work therapies, mind/body therapies, and energy work therapies. The text describes each therapy with a history, cellular mechanism of action, and an up-dated reference section of the evidence of efficacy for the therapy as reported in the literature, often concluding with a case example.

In 1993 Adele Hayes
and Cory Newman

wrote about an integrative model for depression that allowed the therapist to intervene with techniques drawn from behavior therapy, cognitive therapy, experiential therapy, interpersonal therapy, psychodynamic therapy, and biological psychiatry. As discussed earlier, the most effective therapy for chronic depression that has been introduced to date is the integrative CBASP model that was described by James McCullough in 2000.
