God Is Not Great

How Religion Poisons Everything

McClelland & Stewart

Christopher Hitchens, described in the London Observer as “one of the most prolific, as well as brilliant, journalists of our time” takes on his biggest subject yet—the increasingly dangerous role of religion in the world. In the tradition of Bertrand Russell’s *Why I Am Not a Christian* and Sam Harris’s recent bestseller, *The End Of Faith*, Christopher Hitchens makes the ultimate case against religion. With a close and erudite reading of the major religious texts, he documents the ways in which religion is a man-made wish, a cause of dangerous

sexual repression, and a distortion of our origins in the cosmos. With eloquent clarity, Hitchens frames the argument for a more secular life based on science and reason, in which hell is replaced by the Hubble Telescope's awesome view of the universe, and Moses and the burning bush give way to the beauty and symmetry of the double helix.

NEW YORK TIMES BESTSELLER
AMAZON BEST BOOK OF THE YEAR
Unlikely pig owners Steve and Derek got a whole lot more than they bargained for when the designer micro piglet they adopted turned out to be a full-sized 600-pound

sow! This funny, inspirational story shows how families really do come in all shapes and sizes. In the summer of 2012, Steve Jenkins was contacted by an old friend about adopting a micro piglet. Though he knew his partner Derek wouldn't be enthusiastic, he agreed to take the adorable little pig anyway, thinking he could care for her himself. Little did he know, that decision would change his and Derek's lives forever. It turned out there was nothing "micro" about Esther, and Steve and Derek had actually signed on to raise a full-sized commercial pig. Within three years, Tiny Esther grew to a whopping 600 pounds. After some real growing pains and a lot of pig-sized messes, it became clear that Esther needed much more space, so Steve and Derek made another life-

changing decision: they bought a farm and opened the Happily Ever Esther Farm Sanctuary, where they could care for Esther and other animals in need. Funny, heartwarming, and utterly charming, ESTHER THE WONDER PIG follows Steve and Derek's adventure--from reluctant pig parents to farm-owning advocates for animals.

God, Human, Animal, Machine

Technology, Metaphor, and the Search for Meaning *Doubleday*

A strikingly original exploration of what it might mean to be authentically human in the age of artificial intelligence, from the author of the critically-acclaimed *Interior States*. "Meghan O’Gieblyn is a brilliant and humble philosopher, and her book is an explosively thought-provoking, candidly personal ride I wished never to end ... This book is such an original synthesis of ideas and disclosures. It introduces what will soon be called the O’Gieblyn genre of essay

writing." —Heidi Julavits, author of *The Folded Clock* For most of human history the world was a magical and enchanted place ruled by forces beyond our understanding. The rise of science and Descartes's division of mind from world made materialism our ruling paradigm, in the process asking whether our own consciousness—i.e., souls—might be illusions. Now the inexorable rise of technology, with artificial intelligences that surpass our comprehension and control, and the spread of digital metaphors for self-understanding, the core questions of existence—identity, knowledge, the very nature and purpose of life itself—urgently require rethinking. Meghan O’Gieblyn tackles this challenge with philosophical rigor, intellectual reach, essayistic verve, refreshing

originality, and an ironic sense of contradiction. She draws deeply and sometimes humorously from her own personal experience as a formerly religious believer still haunted by questions of faith, and she serves as the best possible guide to navigating the territory we are all entering.

Believers

Making a Life at the End of the World *Farrar, Straus and Giroux*

In search of answers and action, the award-winning poet and essayist Lisa Wells brings us *Believers*, introducing trailblazers and outliers from across the globe who have found radically new ways to live and reconnect to the Earth in the face of climate change. We find ourselves at the end of the world. How, then, shall we live? Like most of us, Lisa Wells has spent years overwhelmed by increasingly urgent news of climate change on an apocalyptic scale. She did not need to be convinced of the stakes, but she could not find practical answers. She embarked on a pilgrimage, seeking wisdom and paths to action from outliers and visionaries, pragmatists and iconoclasts. *Believers* tracks through the

lives of these people who are dedicated to repairing the earth and seemingly undaunted by the task ahead. Wells meets an itinerant gardener and misanthrope leading a group of nomadic activists in rewilding the American desert. She finds a group of environmentalist Christians practicing “watershed discipleship” in New Mexico and another group in Philadelphia turning the tools of violence into tools of farming—guns into ploughshares. She watches the world’s greatest tracker teach others how to read a trail, and visits botanists who are restoring land overrun by invasive species and destructive humans. She talks with survivors of catastrophic wildfires in California as they try to rebuild in ways that acknowledge the fires will come

again. Through empathic, critical portraits, Wells shows that these trailblazers are not so far beyond the rest of us. They have had the same realization, have accepted that we are living through a global catastrophe, but are trying to answer the next question: How do you make a life at the end of the world? Through this miraculous commingling of acceptance and activism, this focus on seeing clearly and moving forward, Wells is able to take the devastating news facing us all, every day, and inject a possibility of real hope. *Believers* demands transformation. It will change how you think about your own actions, about how you can still make an impact, and about how we might yet reckon with our inheritance.

Taking place three years after *The Bean Trees*, Taylor is now dating a musician named Jax and has officially adopted Turtle. But when a lawyer for the Cherokee Nation begins to investigate the adoption—their new life together begins to crumble. Depicting
