...

and can increase their long-term care needs. Wherever possible, people should be supported to return to their home for assessment. Implementing a discharge to assess model where going home is the default pathway, with alternative pathways for people who cannot go straight home, is more than good practice, it is the right thing to do.

Quick Guide: Discharge to Assess - NHS

Integrated care systems (ICSs) are a key part of the NHS long-term plan, and are intended to bring about major changes in how health and care services are planned, paid for and delivered. ICSs are partnerships that bring together providers and commissioners of NHS services across a geographical area with local authorities and other local partners, to collectively plan and integrate care to ...

Integrated care systems explained | The King's Fund

Current pathways for learning and cognition are through Islington Learning Disability Partnership (ILDLP). Currently, access / support for speech and language and communication difficulties, high functioning Autism and sensory and physical impairment is via same pathway [i.e. Adult Social Care Single Point of Access,

which feeds referrals into North and South Locality Teams].

Transition Pathways | Islington Directory

The care plan also outlines any risks, including details of what should happen in an emergency or crisis. Your care co-ordinator. You'll have a CPA care co-ordinator (usually a nurse, social worker or occupational therapist) to manage your care plan and review it at least once a year. Your care plan will say who your care co-ordinator is.
