The HAY system operates by providing a number of "job units" - the score- for the job, which is then matched against the grading structure to determine the grade. There are a number of points that must be remembered. It measures job size, not post holders. What an individual might bring to the job is not relevant.

We see grade structure design as a combination of art and science. The science involves evaluating jobs and placing them in grades by "size". The art involves analyzing key roles that drive value in the business and ensuring appropriate rewards. Organizations often have key jobs that, from a cultural perspective, need to be valued highly ...
