The Moons of Jupiter Summary - eNotes.com

But there is no sharp and distinct line in Alice Munro. In the first story in The Moons of

Jupiter we find some of the earlier almost outrageous exuberance and mischief: "Poverty, to Richard's family, was like bad breath or running sores, an affliction for which the afflicted must bear one part of the blame. But it was not good manners to notice"

The Moons of Jupiter 1982 - Writers' Village University

There are 79 known moons of Jupiter, not counting a number of moonlets likely shed from the inner moons. The most massive of the moons are the four Galilean moons, which were independently discovered in 1610 by Galileo Galilei and Simon Marius and were the first objects found to orbit a body that was neither Earth nor

the Sun. Much more recently, beginning in 1892, dozens of far smaller Jovian ...

Here we come to the final story in another Alice Munro collection, and again it is the title story. As I've been reading this, I've been mulling over what "the moons of Jupiter" have to do with this collection and, now, with this particular story. Sure, the actual Galilean moons — Io, Europa, Callisto,

Ganymede — come up in a conversation late in this piece, but their significance as distant orbiting bodies has deep meaning.
