Adding / Subtracting 1-digit (to 2-digit, 3-digit)

Column subtraction is helpful when you are subtracting two numbers with more than one digit. If you put the smallest number directly underneath the larger number, ensuring they are lined up, you will able to see clearly which numbers need subtracting from each other. Sometimes the top digit can be lower than the bottom digit, this means you will need to take a 'ten' from the next number along, to make a two-digit number in order to complete the subtraction. When children begin to use column ...
