For more on this, here is a comprehensive guide on when not to sleep train. My child feeds at night. Is that part of the problem? It certainly can be. Most formula fed infants are capable of sleeping through the night without feeding by six months of age; this milestone happens later for breast fed infants, probably between 9-12 months of age.

Sleep Training Tools and Methods for the Exhausted Parent

Timing of results. Most votes should be counted on election night, but full results may take a few days. Early and absentee votes cast by the weekend before the election should be pre-counted and those results are expected to be released shortly after 10 p.m. Eastern (the earliest time results can be reported in Arizona, under state law).
