Inventing Americans in the Age of Discovery

Narratives of Encounter *Routledge*

Inventing Americans in the Age of Discovery traces the linguistic, rhetorical, and literary innovations

that emerged out of the first encounters between Europeans and indigenous peoples of the Americas. Through analysis of six texts, Michael Householder demonstrates the role of language in forming the identities or characters that permitted Europeans (English speakers, primarily) to adapt to the unusual circumstances of encounter. Arranged chronologically, the texts examined include John Mandeville's *Travels*, Richard Eden's English-language translations of the accounts of Spanish and Portuguese discovery and conquest, George Best's account of Martin Frobisher's voyages to northern Canada, Ralph Lane's account of the abandonment of Roanoke, John Smith's writings about Virginia, and John Underhill's account of the Pequot War. Through his analysis, Householder reveals that English colonists did not share a universal, homogenous view of indigenous Americans as savages, but that the writers, confronted by unfamiliar peoples and situations, resorted to a mixed array of cultural beliefs, myths, and theories to put together workable explanations of their experiences, which then became the basis for how Europeans in the colonies began transforming themselves into Americans.

Big River, Little Fish *Univ. of Queensland Press*

The compelling and cinematic second novel from Belinda Jeffrey, author of *Brown Skin Blue*. *Big River, Little Fish* is the highly anticipated second novel from Belinda Jeffrey. Set in South Australia during the 1956 Murray River flood, it tells the story of Tom Downs, a boy trapped between his way of reading the world and the world's way of seeing him. He lives in the town but likes it best down by Old Mother Murray, talking to his best friend, Hannah, and helping the outcasts who live in the shacks on her banks. But there's a big river coming and Tom feels like everything he loves and understands might be swept away and lost. From the moment Tom Downs was born backwards the moment of his mother's death time has held him the wrong way round, like he's caught inside a fractured story. But the thing about the Murray River rising, the thing about Tom's town flooding, and the thing that takes him by surprise is not what Old Mother Murray takes away, but who she brings back. *Big River, Little Fish* is a compelling tale of a boy growing up into manhood set against the dramatic and beautiful scenery of the Murray River in South Australia.

Utopia Avenue

A Novel *Random House*

NEW YORK TIMES BESTSELLER • The long-awaited new novel from the bestselling, prize-winning author of *Cloud Atlas* and *The Bone Clocks*. New York Times Book Review Editors' Choice • "Mitchell's rich imaginative stews bubble with history and drama, and this time the flavor is a blend of Carnaby Street and Chateau Marmont."—The Washington Post "A sheer pleasure to read . . . Mitchell's prose is suppler and richer than ever . . . Making your way through this novel feels like riding a high-end convertible down Hollywood Boulevard."—Slate NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The Washington Post • NPR • USA Today • The Guardian • The Independent • Kirkus Reviews • Men's Health • PopMatters *Utopia Avenue* is the strangest British band you've never heard of. Emerging from London's psychedelic scene in 1967, and fronted by folk singer Elf Holloway, blues bassist Dean Moss and guitar virtuoso Jasper de Zoet, *Utopia Avenue* embarked on a meteoric journey from the seedy clubs of Soho, a TV debut on *Top of the Pops*, the cusp of chart success, glory in Amsterdam, prison in Rome, and a fateful American sojourn in the Chelsea Hotel, Laurel Canyon, and San Francisco during the autumn of '68. David Mitchell's kaleidoscopic novel tells the unexpurgated story of *Utopia Avenue*'s turbulent life and times; of fame's Faustian pact and stardom's wobbly ladder; of the families we choose and the ones we don't; of voices in the head, and the truths and lies they whisper; of music, madness, and idealism. Can we really change the

world, or does the world change us?

Dig *Penguin Books*

A surreal and searing dive into the tangled secrets of a wealthy white family in suburban Pennsylvania and the terrible cost the family's children pay to maintain the family name. ★"A.S. King's novels...are in another solar system entirely."--Bookpage, starred review *The Shoveler*, the *Freak*, *CanIHelpYou?*, *Loretta the Flea-Circus Ring Mistress*, and *First-Class Malcolm*. These are the five teenagers lost in the Hemmings family's maze of tangled secrets. Only a generation removed from being Pennsylvania potato farmers, Gottfried and Marla Hemmings managed to trade digging spuds for developing subdivisions and now sit atop a seven-figure bank account--wealth they've declined to pass on to their adult children or their teenage grandchildren. "Because we want them to thrive," Marla always says. What does thriving look like? Like carrying a snow shovel everywhere. Like selling pot at the Arby's drive-thru window. Like a first-class ticket to Jamaica between cancer treatments. Like a flea-circus in a double-wide. Like the GPS coordinates to a mound of dirt in a New Jersey forest. As the rot just beneath the surface of the Hemmings' precious suburban respectability begins to spread, the far-flung grandchildren gradually find their ways back to one another, just in time to uncover the terrible cost of maintaining the family name. With her inimitable prose and keen insight into teenage experience, A.S. King explores how a corrosive culture of polite, affluent white supremacy tears a family apart and how one determined generation can save themselves.

Dream Country *Penguin*

The heartbreaking story of five generations of young people from a single African-and-American family pursuing an elusive dream of freedom. "Gut wrenching and incredible."— Sabaa Tahir #1

New York Times bestselling author of *An Ember in the Ashes* "This novel is a remarkable achievement."—Kelly Barnhill, New York Times bestselling author and Newbery medalist "Beautifully epic."—Ibi Zoboi, author *American Street* and National Book Award finalist *Dream Country* begins in suburban Minneapolis at the moment when seventeen-year-old Kollie Flomo begins to crack under the strain of his life as a Liberian refugee. He's exhausted by being at once too black and not black enough for his African American peers and worn down by the expectations of his own Liberian family and community. When his frustration finally spills into violence and his parents send him back to Monrovia to reform school, the story shifts. Like Kollie, readers travel back to Liberia, but also back in time, to the early twentieth century and the point of view of Togar Somah, an eighteen-year-old indigenous Liberian on the run from government militias that would force him to work the plantations of the Congo people, descendants of the African American slaves who colonized Liberia almost a century earlier. When Togar's section draws to a shocking close, the novel jumps again, back to America in 1827, to the children of Yasmine Wright, who leave a Virginia plantation with their mother for Liberia, where they're promised freedom and a chance at self-determination by the American Colonization Society. The Wrights begin their section by fleeing the whip and by its close, they are then the ones who wield it. With each new section, the novel uncovers fresh hope and resonating heartbreak, all based on historical fact. In *Dream Country*, Shannon Gibney spins a riveting tale of the nightmarish spiral of death and exile connecting America and Africa, and of how one determined young dreamer tries to break free and gain control of her destiny.

The Nature of the State

Excavating the Political Ecologies of the Modern State OUP Oxford

The twin categories of the state and nature collectively embody some of the most fundamental reference points around which our lives and thinking are organized. Despite their combined significance, however, the complex relationships that exist between modern states and nature remain under-theorized and are relatively unexplored. Through a detailed study of different sites, moments, and framing strategies *The Nature of the State* challenges the ways in which geographers and social scientists approach the study of state-nature relations. The authors analyse different instances of state-nature interaction from all over the world, considering the geo-politics of resource conflicts, the operation of natural history museums, the organizational practices of environmental departments and ministries, the regulation of genetic science, and contemporary forms of state intervention within issues of climate change. Introducing original research into the different institutional, spatial, and temporal strategies used by states to frame the natural world this book provides a critical overview of the latest political and ecological theories and addresses a wide range of pressing socio-environmental debates.
