Learning A Very Short Introduction

In this Very Short Introduction Mark Haselgrove describes learning from the perspective of associative theories of classical and instrumental conditioning, and considers why these are the dominant, and best described analyses of learning in contemporary psychology. Tracing the origins of these theories, he discusses the techniques used to study learning in both animals and humans, and considers the importance of learning for animal behaviour and survival.

Tony Wright's Very Short Introduction to British Politics is an interpretative essay on the British political system, rather than merely an abbreviated textbook on how it currently works. He identifies key characteristics and ideas of the British tradition, and investigates what makes British politics distinctive, while emphasizing throughout the book how these characteristics are reflected in the way the political system actually functions.
