Abstract. Family well-being provides a foundation for positive parenting and child well-being. Many previous studies have outlined the possible connections between family well-being, parenting, and child well-being, yet translating research into practice continues to be problematic. The purpose of this article is to review the current literature (from 2000 to 2014) on family and child well-being in order to create a model of well-being that is useful for both researchers and ...
