Research Paper Single Parenting

The Single Parent. The single parent faces some unique challenges and should always be ready to tackle them and maintain a happy family. The main challenge is how to influence a child's growth and development positively without the child being affected substantially

by the absence of the other parent. This, therefore, raises the stakes of single parenthood in owing to that sole responsibility bestowed on a single parent that is, usually, shared by both parents in healthy parenthood.

The Single Parent: A Research Paper Abstract Sample

Single parent. A single parent refers to one who cares for one or more children without the help of one of the biological parents of the child or children. Different nations have varying laws related to single parenthood. These laws determine how those families are treated or served by their respective governments.
