The Undead: Organ Harvesting, The Ice-Water Test, Beating ...

The Undead describes how death has been determined through the ages, beginning with the ancient Egyptians and leading to the 1968 Harvard Medical School paper that indirectly stated that death was not cardiopulmonary failure, but a "loss of personhood"—i.e., brain death. Teresi explores the consequences of new technologies that extend people's lives but which conflict

with society's desire to see them declared dead before their time.
