The Top 10 Innovation Challenges

for 2020

The challenge of policy coherence becomes particularly important for policies with an ambition to enable cross- sectoral and multi-actor innovation for sustainable development (Reid and Miedzinski, 2008; Rogge and Reichardt, 2016). OECD (2003) differentiates between three types of policy coherence: horizontal, vertical and temporal.

A framework for mission-oriented innovation policy ...

Responding to this challenge requires that we recognize that the nature and terms of economic competition are shifting as the United States cooperates and competes in a global economy. 2 U.S. policy makers need to be aware of

the wide variety of innovation and competitiveness policies that many nations have adopted. These policies are designed to build research capacities and to acquire knowledge, and then to transition that knowledge directly to companies and support their development.
