How to Talk to Your Children in Language That Builds Self-Esteem and Encourages Responsibility *Simon and Schuster*

The right words for every situation. Do

you find yourself in those maddening situations where you sound like a broken record when talking to your child? Your preschooler won't decide what she wants to wear, regardless of how many times you insist that she just choose; your struggling third grader says "I can't do math," and your "Sure you can!" reassurance falls like a dead weight; your daughter smears on black eyeliner just before the bus arrives, and your daily protests are muted by hers. What's left to say? Lots. In *Parent Talk*, a must-have for every parent with a preschool to high school-age child, Chick Moorman tells you what to say so that you can communicate more effectively—and peacefully—with your child in every circumstance, including: -The morning mad dash to dress, eat, and leave the house on time -The nightly struggle to focus on homework -The endless car ride of exhaustion-induced whining -The meltdown in the mall For instance, Moorman's antidote to the "I can't" loop is "Act as if you've done this before." With Moorman's help, you'll learn the words to use and the words to avoid to end power struggles and the fruitless conversation loops you're stuck in.

How to Talk Your Way to Success *Pickle Partners Publishing*

Have you ever stopped to think how much "talk" occurs in our own little busy world every day of our lives? Do you realize how much talk is involved in our jobs in everyday business? How everything we do every day of our lives involves conversation and speech on many different topics? Our conversations in our household and community affairs, at our desk in the office, out in the factory or on the road, with our fellow workers, executives, vendors, customers, visitors, friends—all these involve thousands of words every day in our lives. Imagine what help it might be to your prospects of success if all your talk and conversation were consciously directed to specific objectives and goals of accomplishment. Think of the pleasant and desirable things that might happen if your talks, your conversations, your letters, your telephone messages, your public appearances all were consciously channeled along the road to success. This book has as its major purpose the directing of all these words into proper, efficient, and effective lines of communication.

How to Talk to Your Boss About Race

Speaking Up Without Getting Shut Down *Penguin*

How to Talk with Your Kids about Sex *Thomas Nelson Inc*

Having trouble talking to your kids about sex? Their friends at school don't... Unfortunately, for many parents, the most important conversations are the hardest. Ninety-three percent of adults are dissatisfied with the sex education they received as children, which is precisely why they are so bad at teaching their kids—they have no frame of reference. Renowned Harvard Medical School psychologist and frequent Dr. Phil guest John Chirban helps parents talk to

their kids . . . about sex. Kids are going to learn about sex, and it is up to parents to decide if their kids are going to learn from them or from MTV. How parents address sex—their openness, the context, and their attitudes—will impact how their children view their own sexuality and self-worth. Dr. Chirban helps parents know when, how, and how much. He uses humor, compassion, and real-life examples to prepare parents for a healthy and ongoing conversation that will equip their kids to own their own sexuality and an understanding of the larger issues of relationships, love, commitment, and intimacy. In addition, parents understand how helping their children understand these veiled yet critical keys of a fulfilling life deepens their own connection with their children.

How to Talk to Your Child's Doctor

A Handbook for Parents *Prometheus Books*

A two-year-old develops a nasty cough and after experiencing breathing problems, his concerned parents take

him to the emergency room. The doctor on call diagnoses his symptoms as croup, prescribes treatment, but days later the cough is no better. After another trip to the emergency room, x-rays, respiratory therapy, and treatment for asthma, the little boy still cannot shake his cough and breathing difficulties. Finally, two weeks later, the family doctor suggests an examination by an ear-nose-and-throat specialist. Using a bronchoscope, the specialist finds a small piece of plastic from a toy lodged in the edge of the child's trachea. After removing the obstruction, the boy returns to normal within a day. In fact, he never had croup or asthma. Could this lengthy, frustrating experience have been avoided? In this illuminating guide to communicating with your child's doctor, pediatrician Christopher M. Johnson shows parents how to talk more effectively to their doctors about their children's health. Johnson takes the nonmedical layperson into the mindset of the physician examining a sick child for the first time. He demonstrates how doctors evaluate symptoms, interpret answers to their questions, and decide on a course of treatment. The book invites and then empowers parents to join their child's doctor as a partner in the diagnostic and therapeutic process. Each chapter ends with a communication checklist to help parents find the right words while visiting the doctor. Dr. Johnson covers the following topics: The medical history and why it is so important. How and why the doctor examines your child. How a doctor uses lab tests. How a doctor arrives at a diagnosis. Time-honored medical wisdom that all doctors rely on. The difference between specific treatments and supportive care when a diagnosis is uncertain. Consulting specialists along

with the family physician. The final chapter encourages the reader to become a sort of junior doctor by presenting several real-life cases and challenging the reader to work through the problem as a physician would. This jargon-free and completely accessible guidebook will enable you to assist your child's doctor in the vital work of effectively caring for your child in health and illness. Christopher M. Johnson, MD (Santa Fe, NM), is a pediatrician in private practice at Pediatric Intensive Care Associates, PC. Formerly, he was employed by the Mayo Clinic in Rochester, MN, as professor of pediatrics and director of the Pediatric Intensive Care Unit. He is the author of *Your Critically Ill Child: Life and Death Choices Parents Must Face*, which was selected by Library Journal for its Best Consumer Health Books of 2007. Talking to Your Kids about Sex *Waterbrook Press*

"The greatest enemy of sexual wholeness today," asserts Mark Laaser, Ph.D., "is silence." A therapist specializing in the field of sexual health, Dr. Laaser has worked with hundreds of adults who suffer the consequences of sexual sin and dysfunction. All of them long to have had meaningful conversations with their parents about sex when they were growing up. Most parents would agree that healthy sexuality should be taught at home rather than left to their children's teachers, peers, or culture. However, even parents with the best intentions can feel at a loss regarding where to start. In Talking with Your Kids about Sex, Dr. Laaser cuts through the confusion, coaching you through specific, age-appropriate discussions you can have with your son or daughter from early childhood through young adulthood; giving guidance on how to explore and examine your own sexual beliefs and issues; and empowering you to help your child develop a healthy and biblical understanding of sexuality, a

glorious gift from God.

Creating Compassionate Kids: Essential Conversations to Have with Young Children *W. W. Norton & Company*

Young children can surprise us with tough questions. Tominey's essential guide teaches us how to answer them and foster compassion along the way. If you had to choose one word to describe the world you want children to grow up in, what would it be? Safe? Understanding? Resilient? Compassionate? As parents and

caregivers of young children, we know what we want for our children, but not always how to get there. Many children today are stressed by academic demands, anxious about relationships at school, confused by messages they hear in the media, and overwhelmed by challenges at home. Young children look to the adults in their lives for everything. Sometimes we're prepared... sometimes we're not. In this book, Shauna Tominey guides parents and caregivers through how to have conversations with young children about a range of topics—from what makes us who we are (e.g., race, gender) to tackling challenges (e.g., peer pressure, divorce, stress) to showing compassion (e.g., making friends, recognizing privilege, being a helper). Talking through these topics in an age-appropriate manner—rather than telling children they are too young to understand—helps children recognize how they feel and how they fit in with the world around them. This book provides sample conversations, discussion prompts, storybook recommendations, and family activities. Dr. Tominey's research-based strategies and practical advice creates dialogues that teach self-esteem, resilience, and empathy: the building blocks for a more compassionate world.

Talk With Your Kids

Conversations About Ethics -- Honesty, Friendship, Sensitivity, Fairness, Dedication, Individuality -- and 103 Other Things That Really Matter *Black Dog & Leventhal*

A guide for parents to help their children better understand the world around them by helping them think through the questions they face regarding honesty, friendship, sensitivity, fairness,

dedication, individuality and 103 other character-building issues. Many families and almost all schools spend a great deal of time developing children academically, but studies show that scholastic achievement is not the only key to future success. Developing non-cognitive skills, which children often learn from their parents, is equally relevant. *Talk with Your Kids* prompts thoughtful and effective discussion between parents and children by posing 109 open-ended questions. Many of the questions reflect situations immediately relevant to kids, such as cyber-bullying, cheating in school or in sports, accepting differences, illegal music downloads, what defines lying, and making choices about drugs and sex. Other questions ask kids to consider larger dilemmas, such as medical ethics and medical testing, declaring war, crime and punishment, eating meat, and more. Parker also offers suggestions to parents on how to keep the conversations going and encourage kids to think more deeply about an issue. Throughout the book are questions based on the theories of famous ethicists and philosophers, including John Stuart Mill, Immanuel Kant, Thomas Hobbes, and Jean Jacques Rousseau. Best-selling parenting books such as *How Children Succeed* and *NurtureShock* emphasize the importance of strong values in a child. The conversations in *Talk with Your Kids* help parents achieve this goal.
