Basic Color Terms Their Universality

A "basic" colour term is a term under which other ("non-basic")

colour terms can be classified. For example, the English colour terms 'scarlet', 'strawberry' and 'magenta' are not basic because they can all be classified under the basic term 'red'. 'Pink', however, is a basic term because it cannot be classified under any other colour term.

Amazon.com: Basic Color Terms: Their Universality and ...
Basic Color Terms: Their Universality and Evolution (1969; ISBN 1-57586-162-3) is a book by Brent Berlin and Paul Kay. Berlin and Kay's work proposed that the basic color terms in a culture, such as black, brown, or red, are predictable by the number of color terms the culture has. All cultures have terms for black/dark and white/bright.
