Limescale deposits will block your steam iron's or steam generator's steam holes, leading to rust formation. That could inhibit the flow in the iron or leave brown stains on your laundry. You can prevent this by descaling your iron every 3 months. That way, the steam output remains powerful and your steam iron or steam generator will last longer.

Descaling an iron or steam generator - Coolblue - Before ...

Firstly, fill the iron tank to MAX with water. Set the thermostat control to Max and the steam control on DRY and switch on. Place the iron on its heel and leave to heat up for around 5 minutes. Unplug the iron then hold your iron horizontally above the sink.
