Steel Design Guide 26
Non-member. \$60.00. Design Guide 26, Design of Blast Resistant Structures, provides guidance for the design of blast resistant structures and progressive collapse mitigation. Background information and some basic principles are reviewed, as well as the presentation of design examples. The goal of this Design Guide is to provide enough information for a structural engineer to effectively interact with a security or blast consultant.

Design Guide 26: Design of Blast Resistant Structures ...
Progressive collapse design is independent of blast design because progressive collapse may be caused by other possible events such as fire, accident, impact, etc. Examples demonstrating the determination of the structural response to progressive collapse are included. The guide addresses only the behavior of structural steel under blast loading.
