Devil's Defender

My Odyssey Through American Criminal Justice from Ted Bundy to the Kandahar Massacre *Chicago Review Press*

In the tradition of bestselling legal memoirs from Johnnie Cochran, F. Lee Bailey, Gerry Spence, and Alan Dershowitz, John Henry Browne's memoir, *The Devil's Defender*, recounts his tortuous education in what it means to be an advocate—and a human being. For the last four decades, Browne has defended the indefensible. From Facebook folk hero "the Barefoot Bandit" Colton Moore, to Benjamin Ng of the Wah Mee massacre, to Kandahar massacre culprit Sgt. Robert Bales, Browne's unceasing advocacy and the daring to take on some of the most unwinnable cases—and nearly win them all—has led 48 Hours' Peter Van Sant to call him "the most famous lawyer in America." But although the Browne that America has come to know cuts a dashing and confident figure, he has forever been haunted by his job as counsel to Ted Bundy, the most famous serial killer in American history. A drug- and alcohol-addicted (yet wildly successful) defense attorney who could never let go of the case that started it all, Browne here asks of himself the question others have asked him all along: does defending evil make you evil, too?

Why We Love Serial Killers

The Curious Appeal of the World's Most Savage Murderers *Skyhorse*

For decades now, serial killers have taken center stage in the news and entertainment media. The coverage of real-life murderers such as Ted Bundy and Jeffrey Dahmer has transformed them into ghoulish celebrities. Similarly, the popularity of fictional characters such as Hannibal "The Cannibal" Lecter or Dexter demonstrates just how eager the public is to be frightened by these human predators. But why is this so? Could it be that some of us have a gruesome fascination with serial killers for the same reasons we might morbidly stare at a catastrophic automobile accident? Or is something more? In *Why We Love Serial Killers*, criminology professor Dr. Scott Bonn explores our powerful appetite for the macabre, while also providing new and unique insights into the world of the serial killer, including those he has gained from his correspondence with two of the world's most notorious examples, David Berkowitz ("Son of Sam") and Dennis Rader ("Bind, Torture, Kill"). In addition, Bonn examines the criminal profiling techniques used by law enforcement professionals to identify and apprehend serial predators, he discusses the various behaviors—such as the charisma of the sociopath— that manifest themselves in serial killers, and he explains how and why these killers often become popular cultural figures. Groundbreaking in its approach, *Why We Love Serial Killers* is a compelling look at how the media, law enforcement agencies, and public perception itself shapes and feeds the "monsters" in our midst.

In the heatwave summer of 1971, four kids find a body by a lake and set out to solve a murder. But they dig too deep and ask too many questions. Larson is a town reeling in the wake of the Vietnam draft, where the unrelenting heat ruins the harvest, and the people teeter on the edge of ruin. As tension and paranoia run rife, rumours become fact, violence becomes reflex. The unrest allows the dark elements of the close-knit farming community to rise and take control. And John, Jenny, Gloria and Rudy are about to discover that sometimes secrets are best left uncovered...

The 1976 Psychological Assessment of Ted Bundy

"Do you think I killed those girls?" Ted Bundy asked me this question after we had completed the final interview. We were standing in the corridor outside my office and Ted was about to return to his cell. It was an unusual question to ask... I was caught off guard by the question." "With this question, Ted had put me in a lose-lose situation. My best option might have been to tell him that I couldn't, or wouldn't, answer his question. However, I said to him, "I don't know, but if you did, I believe you will do it again." I'm sure it wasn't what he wanted to hear. He didn't say anything. He turned and walked back to his cell. In future conversations we had together he never again asked that question." "Putting all the information I had gleaned from the test data as well as the phone conversations and the personal interviews with Ted? I concluded that it was my opinion that Ted's personality fit the crime for which he was found guilty. I submitted my report to the court. Then all hell broke loose." - from *The 1976 Psychological Assessment of Ted Bundy* Dr. Carlisle was part of the 90-Day Diagnostic team at the Utah State Prison tasked by the judge to determine to the best of

his ability, without being biased by any of the reports previously done, whether Ted Bundy had a violent personality. Many books have been written about Bundy, but rarely have we had the opportunity to understand the inner workings of his mind. Now, Dr. Carlisle shares the step-by-step psychological assessment process regarding how he determined that Bundy was indeed a violent person and would likely continue to kill if he was set free. This book contains never-before-seen interviews with Ted and those who knew him, along with some of Bundy's assessments, and a letter he wrote to Dr. Carlisle. Book four in the Development of the Violent Mind series.

Confession of a Serial Killer

The Untold Story of Dennis Rader, the BTK Killer *University Press of New England*

In 1974, Dennis Lynn Rader stalked and murdered a family of four in Wichita, Kansas. Since adolescence, he had read about serial killers and imagined becoming one. Soon after killing the family, he murdered a young woman and then another, until he had ten victims. He named himself "B.T.K." (bind, torture, kill) and wrote notes that terrorized the city. He remained on the loose for thirty years. No one who knew him guessed his dark secret. He nearly got away with his crimes, but in 2004, he began to play risky games with the police. He made a mistake. When he was arrested, Rader's family, friends, and coworkers were shocked to discover that B.T.K. had been among them, going to work, raising his children, and acting normal. This case stands out both for the brutal treatment of victims and for the ordinary public face that Rader, a church council president, had shown to the outside world. Through jailhouse visits, telephone calls, and written correspondence, Katherine Ramsland worked with Rader himself to analyze the layers of his psyche. Using his drawings, letters, interviews, and Rader's unique codes, she presents in meticulous detail the childhood roots and development of one man's motivation to stalk, torture, and kill. She reveals aspects of the dark motivations of this most famous of living serial killers that have never before been revealed. In this book Katherine Ramsland presents an intelligent, original, and rare glimpse into the making of a serial killer and the potential darkness that lives next door.

Faces of Ted Bundy

My Prison Interviews with Bundy *CreateSpace*

FACES OF TED BUNDY: MY PRISON INTERVIEWS WITH BUNDY by Dr. Paul Dawson (New edition of MASKS OF TED BUNDY) presents the shocking confessions and sensational interview comments of the all-American psycho, Ted Bundy. He was the all-American boy murdering all-American girls. Bundy, a chilling enigma, was one of the most dangerous sex predator-deviants and serial-sex killers in the American history of crime. Dr. Dawson brings a clinical psychologist's perspective to the Ted Bundy interviews which he completed in 1988 and are now available for the first time after 25 years. Dr. Dawson conducted a series of interviews with Ted Bundy, poster boy for serial-sex killers, in 1988 while he was on Death Row in the Florida State Prison at Starke, Florida. Bundy, a psychopath without a conscience, was executed in January, 1989. Dr. Dawson provides a rare, exclusive, exciting and fascinating investigation and assessment inside the dangerous, paradoxical mind of this notorious serial-sex killer. Bundy's sordid mystique, the horror of his homicidal night-stalker, serial-sex killer rampage is explored in depth. Dr. Dawson, in these interviews, reveals Bundy's darkest secrets, elicits rape-murder confessions from Bundy and confronts the murderer of 30 to possibly over 100 young women and girls by probing his mind, examining and challenging Bundy's rationalizations. Bundy, a conundrum, finally answers questions about his mysterious crimes he's suppressed for many years. Some psychological theories are presented to shine valid, logical light on Bundy's repulsive, depraved, ghastly crimes of assault-abduction, torture-rape, mutilation, murder-necrophilia, dismemberment and cannibalism - at times he ate their flesh. Dr. Dawson earned a Ph.D. in psychology from The New School for Social Research, Graduate Faculty, New York City. Dr. Dawson has been chief psychologist of a state prison system, clinical psychologist in mental hospitals, clinics and in private practice. The Devil's Right-Hand Man

The True Story of Serial Killer Robert Charles Browne *Penguin*

The case of Robert Charles Browne, who may be one of America's most prolific serial killers, was supposed to be a cold one. But that was before three retired buddies took it on. "The score is you one, the other team 48," wrote Robert Charles Browne in March 2000, from his prison cell in Colorado, where he was serving a life sentence for a girl's murder. "Seven sacred virgins entombed side by side, those less worthy are scattered wide." No one in local law enforcement knew what to make of this message. Then three friends, volunteer members of the El Paso Sheriff's Department cold case squad, decided to write back to Browne. Browne boasted about having killed as many as forty-eight people in a cross-country murder spree spanning twenty-five years. As the old friends parsed the riddles, investigators followed clues leading to a confession and the closure of another heartbreaking case. This is their story. Includes photographs

Defending the Devil

My Story As Ted Bundy's Last Lawyer *Echo Point Books & Media*

Charged with defending the convicted and unrepentant mass murderer Ted Bundy during the last three years of his life, newly-minted Washington, D. C. attorney Polly Nelson fought to keep him out of the electric chair. In the now-classic *Defending the Devil*, she recounts with powerful honesty her own challenging role in the drama. Viewing herself as a compassionate humanitarian first, Nelson reveals her struggle to uphold her professional vow to represent her client (and try to save his life) while simultaneously being deeply mortified by the magnitude of his heinous crimes. Bundy's legal proceedings are meticulously recounted here, offering an eye-opening glimpse into the complex judicial appeals system. In addition to her fascinating behind-the-scenes look at the court proceedings, Nelson offers her unique insight into the mind of the killer. She paints a portrait of him as something less-than the diabolical evil genius suggested by his notoriety. While making no excuses for his despicable actions and acknowledging his "absolute misogyny," Nelson explores psychological angles to the case that many previously ignored. Showing a decidedly humanist slant, she brings Bundy's overt mental illness to the fore and makes a compelling case against the use of capital punishment. While ultimately unable to stay Bundy's execution, Nelson found a true calling in the fight to appeal the sentence. With candor and wit, she shares her own personal journey of emotional and intellectual transformation as a lawyer. "I was born to represent Ted Bundy," she writes.
