Summary. Never before published in any Western language except in fragments, this classical work of Chinese mysticism is a fundamental - and fascinating - source for the study of Taoism ("Deism") as belief and as practice. In the China of the 4th century A.D., alchemy, medicine, and religion were so closely interrelated as to form a single study; the Western gap between science and religion, and between scholarly study and moral practice did not obtain.

In the history of science, alchemy refers to both an early form of the investigation of nature and an early philosophical and spiritual discipline, both combining elements of chemistry, metallurgy, physics, medicine, astrology, semiotics, mysticism, spiritualism, and art all as parts of one greater force.

Alchemy - Crystalinks

Chinese alchemy is an ancient Chinese scientific and technological approach to alchemy, a part of the larger tradition of Taoist / Daoist body-spirit cultivation developed from the traditional Chinese understanding of medicine and the body. According to original texts such as the Cantong qi, the body is understood as the focus of cosmological processes summarized in the five agents, or wu xing, the observation and cultivation of which leads the practitioner into greater alignment with the operat

Alchemy was not original in seeking these goals, for it had been preceded by religion, medicine, and metallurgy. The first chemists were metallurgists, who were perhaps the most successful practitioners of the arts in antiquity. Their theories seem to have come not from science but from folklore and religion.

The Daoist canon is the definitive fifteenth century compilation of texts concerning ritual, alchemical and meditation practices within Daoist religion. Many of these texts are undated and anonymous, so dating them is essential for a clear understanding of the development of Chinese alchemy, and the place of these texts in history.

Explorations in Daoism: Medicine and Alchemy in Literature ...

Waidan, translated as external alchemy or external elixir, is the early branch of Chinese alchemy that focuses upon compounding elixirs of immortality by heating minerals, metals, and other natural substances in a luted crucible. The later branch of esoteric neidan "inner alchemy", which borrowed doctrines and vocabulary from exoteric waidan, is based on allegorically producing elixirs within the practitioner's body, through Daoist meditation, diet, and physiological practices. The practice of w

Waidan - Wikipedia

Compared to European alchemy, Chinese alchemy had a more obvious application to medicine and was influenced by Taoism, a philosophical and religious tradition of living in harmony with the natural order of the universe, and traditional Chinese medicine.
