This massive painting is over 13 feet tall and was created as part of a series inspired by the amorphous ink blots. Developed by the Swiss psychiatrist Hermann Rorschach in the early 20 th century, the Rorschach test consists of ten standardized blots for a patient to decipher. In this series, Warhol invented his own by painting one side of a canvas and then folding it vertically to imprint the other half, inspired by his mistaken impression that patients created these images for doctors to ...

Indeed, Rorschach is a seductively experimental piece, favouring a symmetrical network of thick, syrupy veins of paint left behind by Warhol's pour-and-fold technique. With the basis for the series rooted in psychological study, the Rorschach Paintings develop a strong connection with the conscious mind. The creative aftermath of these works gives way to a spectrum of conceptual

translation and emotional understanding, conjuring a deep variety of response and conversation.
