Education Planning And Human Development

The fact that education plays an important role in human development is often ignored. This is a shame, because it's this value that is often most important. Education can help people develop economically, socially, and intellectually. Further, it's not just individuals who benefit from education. Entire communities benefit.

Human Development, Health and Education

Education has a modernizing influence on values, beliefs and behaviours which make human beings more development-oriented. Viewed from the modernization theory, education is called upon to re-orientate and/or suppress beliefs, attitudes and values which tend to obstruct the initiation of the modernization process.

The relationship between education and development

At the beginning of the 1960s, educational planning was seen as a 'must' for the newly independent countries in order for them to move ahead quickly and systematically with their human resource development. Planning units were set up in ministries of education but were highly dependent on

Education policy and planning - UNESCO

The comprehensive investment planning for education that incorporated nationwide capital planning for education is an effective example of the integrative plan that France developed in 1946 AD. However, it was not until the 1960s when educational planning became very popular in most of the countries, especially in the developing countries (UNESCO, 2003).

History of Educational Planning - UKessays.com

Educational Planning • Educational planning can be defined as 'the process of setting out in advance, strategies, policies, procedures, programmes and standards through which an educational objective (or set of objectives) can be achieved'. • Educational planning is a detailed and systematic process: it just does not happen by chance.

educational planning - SlideShare

Education for Sustainable Development (ESD) empowers people to change the way they think and work towards a sustainable future. UNESCO aims to improve access to quality education on sustainable development at all levels and in all social contexts, to transform society by reorienting education and help people develop knowledge, skills, values and behaviours needed for sustainable development.

Education for Sustainable Development - UNESCO

Educational planning is the process of preparing for your post-secondary education. Effective educational planning enables you to make a smooth transition from high school to college, further technical education or military service. A good educational plan will provide you and your family with a map of your future education and career goals.

What Is the Meaning of Educational Planning? | The Classroom

The effective use of schools in assuring a sustainable and diverse human future requires the development of educational policies dealing with all the complexities of sustainability and capable management and competent planning for their successful implementation. 1.
