How Creativity Works. Let me break another misconception about creativity, which is that it's only used to create completely "new" or "original" things. Again, this is far from the truth. Because nothing is ever completely new or original. Everything, including works of art, doesn't come from nothing.

What Is Creativity? We All Have It,

and Need It

The door to creativity is often opened during meditation, reverie, or dreams, in which time is perceived as an eternal present in which the divisions of past, present, and future meld into an all-encompassing now. In this state, it is not just the separations in time that disappear, but also separations between people and things.

Did It Take Creativity to Find Relativity, Albert Einstein ...

Creativity is an act where we create something new – something that did not exist until we put it together. According to Psychology Today : ‘Creative thinking involves making new connections between different regions of the brain, which is accomplished by cultivating divergent thinking skills and deliberately exposing oneself to new experiences and to learning.’
