TextBook Differential Equations Instructors Solutions ...

In mathematics, a partial differential equation is an equation which imposes relations between the various partial derivatives of a multivariable function. The function is often thought of as an "unknown" to be solved for, similarly to how x is thought of as an unknown number, to be solved for, in an algebraic equation like $x^2 - 3x + 2 = 0$. However, it is usually impossible to write down explicit formulas for solutions of partial differential equations. There is, correspondingly, a vast ...
