Designing social inquiry : scientific inference in ...

Designing Social Inquiry: Scientific Inference in Qualitative Research (or KKV) is an influential 1994 book written by Gary King, Robert Keohane, and Sidney Verba that lays out guidelines for conducting qualitative research. The central thesis of the book is that qualitative and

quantitative research share the same "logic of inference" (p. 3). The book primarily applies lessons from regression ...

Designing Social Inquiry - Wikipedia

The Science in Social Science 1.1
INTRODUCTION THIS BOOK is about research in the social sciences. Our goal is practical: designing research that will produce valid inferences about social and political life. We focus on political science, but our argument applies to other disciplines such as sociology, anthropology, history, economics,
