Microsoft Solutions Framework is a set of principles, models, disciplines, concepts, and guidelines for delivering information technology services from Microsoft. MSF is not limited to developing applications only; it is also applicable to other IT projects like deployment, networking or infrastructure projects. MSF does not force the developer to use a specific methodology.

Microsoft Solutions

Framework -

Wikipedia

Microsoft Solutions Framework (MSF) is an adaptable approach for delivering technology

solutions successfully, faster, with fewer people, less risk, and with higher quality. It does this by helping teams directly address the most common causes of technology project failure –improving success rates, solution quality, and business impact.
