Clinical Assessment And Intervention For

Assessment and intervention. We are currently looking at how we can use technological solutions to enable the remote delivery of those services which have previously only been available in a face-to-face setting. Our assessments help to clarify and understand the performance of individual practitioners, and provide the healthcare organisation and practitioner with a sound basis upon which to bring the case towards a resolution.

Assessment and intervention - NHS Resolution

Clinical Assessment and Intervention for Autism Spectrum Disorders summarizes evidence-based assessments and intervention for Autism across the life-span, providing clinicians with a practical overview of how best to assess and treat this disorder. The book begins with a discussion of what warrants a determination of being "evidence based" and a description of the disorder from a life span perspective.

Clinical Assessment and Intervention for Autism Spectrum ...

The assessment is carried out through a clinical assessment visit by a trained team of assessors, supported by an Assessment and Intervention Manager. It includes: Clinical record review: of a sample of patient records. Direct observation of practice: the practitioner's normal clinical work. Case-based assessment: exploring clinical reasoning and decision-making about the practitioner's own cases.
