Time Management | Psychology Today

The Psychology of Time Travel presents an alternate version of recent history that is captivating from the first page. In 1967, time travel is invented by a team of four female scientists – Margaret, Lucille, Grace and Barbara, or, as they're often known, 'the pioneers'.

The Psychology of Time Travel by Kate Mascarenhas

On the contrary psychological time is something very different. It always occurs if we dwell on a situation mentally, then we drop out of the present moment. If we set a goal, using clock time as described above, we can work towards it in the present moment and be present while doing so.

Clock Time vs. Psychological Time - Myrko Thum

Although physical time appears to be more or less objective, psychological time is subjective and potentially malleable, exemplified by common phrases like “time flies when you are having fun” and “a watched pot never boils”. This malleability is made particularly apparent by the various temporal illusions we experience.
