The Critical Role of Parenting in Human Development - Reviews

Research shows it has the potential to promote normal developmental trajectories for high-risk children, such as those from low-income backgrounds and/or those with very premature births. 13 In contrast, unresponsive parenting may jeopardize children’s development, particularly those at higher risk for developmental problems. 14 The critical importance of responsive parenting is highlighted by recent evidence identifying links between high levels of early responsive parenting and larger ...

Parents naturally speak to Children, as this is their role as a parent. They can talk with other Parents and Adults, although the subject still may be about

the children. The Nurturing Parent naturally talks to the Natural Child and the Controlling Parent to the Adaptive Child. In fact these parts of our personality are evoked by the opposite. Thus if I act as an Adaptive Child, I will most likely evoke the Controlling Parent in the other person.
