Ever since his younger sister Martha woke him early one Sunday morning holding a Rubic's Cube in the palm of her hand with all the colored squares in perfect alignment, in some backward way, twelve-year-old Richard Baimbridge became his sister's motivation. If she saw me give up on anything, regardless of how insignificant-forgetting a phone number, finding the right nut to fit a bolt, or fixing a broken toy-she'd go after it with fanaticism and would not give up until she'd figured it out. Being better than Richard challenged Martha and when she succeeded, it fulfilled her. Richard was proud of her, but not like their Dad. Their Dad loved it. It seemed

the more Martha outdid Richard, the more he liked it. By the time Richard left home at eighteen, there was a gap between his father and him that an ocean couldn't fill. But when Martha is brutally attacked while investigating the rape and attempted murder of a thirteen-year old for the News & Observer, Richard Baimbridge moves back to his hometown of Wilmington, North Carolina, to assist his family in caring for his sister and comes face to face with his tormented past and a dark family secret. Despised by his father and haunted by his past, he fights to stay above the flood of childhood trauma while longing to return to the life he'd built in New York City. But when the

police exhaust all leads in his sister's case, wheelchair-bound Martha refuses to let her case die and, with Richard as her legs, insists on continuing the investigation herself, drawing Richard into the darker side of Wilmington - a place of greed, violence, and murder - where he, himself, becomes a primary murder suspect.

From the time Elise was fifteen years old, she knew she was different and that society did not embrace her difference. While in high school, Elise existed on the edge of the dating game. After graduating college she makes a decision to change her life. She

wants to be the daughter her parents have always wanted. Elise terminates all of her old friendships, dates and becomes engaged to a well-respected young man. For some reason her engagement wedges a gap between Elise and her younger sister. But Elise is too concerned with changing her life to fix things with her sister. Then Elise meets a young woman who makes her question the path she's chosen. As Elise fluctuates between conflicting emotions, her indecisiveness alienates her family and sends her sister on a path of destruction. A tragedy forces Elise to rethink her decisions and accept that she is the master of her fate. S. Stephens has written a mournful yet

optimistic story about overcoming the pressures of society. She explores one woman's turmoil and the emotional havoc it caused in her life. The secondary characters were pivotal to the story, in their attitudes about people's views on alternative lifestyles. The writing, characterizations and pace of the story are good. I applaud Ms. S. for this honest, emotional, and penetrating view of family influence and self-worth: she is an author who bears watching. -ANN Brown, Rawsistaz

In a tight, dramatic, two-character, two-act play Ted Allan, one of Canada's best-known playwrights, challenges us to think again about

love and guilt, about madness and normalcy. My Sister's Keeper was first produced at the 1976 Lennoxville Festival in Quebec. (an earlier version, entitled 'I've Seen You Cut Lemons,' had been directed by Sean Connery at the Fortune Theatre in London in 1970.) It is a play about sensitivity and about victims; about what we do to each other and particularly about what society does to women; about what makes us able to love and what prevents us from allowing ourselves to love. One day 'schizophrenic' Sarah arrives--to stay--at the London flat of her successful, 'normal' brother. The ensuing confrontations lead us, when we can catch our breath, to ask just who

it is that is insane, and why?

Raw Histories

Photographs, Anthropology and Museums *Routledge*

Photographs have had an integral and complex role in many anthropological contexts, from fieldwork to museum exhibitions. This book explores how approaching anthropological photographs as 'history' can offer both theoretical and empirical insights into these roles. Photographs are

thought to make problematic history because of their ambiguity and 'rawness'. In short, they have too many meanings. The author refutes this prejudice by exploring, through a series of case studies, precisely the potential of this raw quality to open up new perspectives. Taking the nature of photography as her starting point, the author argues that photographs are not merely pictures of things but are part of a dynamic and fluid historical dialogue, which is active not only in the creation of the photograph but in its subsequent social biography in archive and museum spaces, past and present. In this context, the book challenges any uniform view of anthropological photography and its resulting archives. Drawing on a variety of examples, largely from the Pacific, the book demonstrates how close readings of photographs reveal not only western agendas, but also many layers of differing historical and cross-cultural experiences. That is, photographs can 'spring leaks' to show an alternative viewpoint. These themes are developed further by examining the dynamics of photographs and issues around them as used by contemporary artists and curators and presented to an increasingly varied public. This book convincingly demonstrates photographs' potential to articulate histories

other than those of their immediate appearances, a potential that can no longer be neglected by scholars and institutions.

The Gilded Hour *Penguin*

The international bestselling author of *Where the Light Enters*

presents a remarkable epic about two female doctors in nineteenth-century New York. The year is 1883, and in New York City, Anna Savard and her cousin Sophie—both graduates of the Woman's Medical School—treat the city's most vulnerable, even if doing so puts everything they've strived for in jeopardy... Anna's work has placed her in the path of four children who have lost everything, just as she herself once had. Faced with their helplessness, Anna must make an unexpected choice between holding on to the pain of her past and letting love into her life. For Sophie, an obstetrician and the orphaned daughter of free people of color,

helping a desperate young mother forces her to grapple with the oath she took as a doctor—and thrusts her and Anna into the orbit of anti-vice crusader Anthony Comstock, a dangerous man who considers himself the enemy of everything indecent and of anyone who dares to defy him. With its vivid depictions of old New York and its enormously appealing characters, *The Gilded Hour* is a captivating novel by an author at the height of her powers.

House Rules

A Novel *Simon and Schuster*

From the #1 New York Times bestselling author of *Small Great Things* and the modern classics *My Sister's Keeper*, *The Storyteller*, and more, comes a "complex, compassionate, and smart" (The Washington Post) novel about a family torn apart by a murder accusation. When your son can't look you in the eye...does that mean he's guilty?

Jacob Hunt is a teen with Asperger's syndrome. He's hopeless at reading social cues or expressing himself well to others, though he is brilliant in many ways. He has a special focus on one subject—forensic analysis. A police scanner in his room clues him in to crime scenes, and he's always showing up and telling the cops what to do. And he's usually right. But when Jacob's small hometown is rocked by a terrible murder, law enforcement comes to him. Jacob's behaviors are hallmark Asperger's, but they look a lot like guilt to the local police. Suddenly the Hunt family, who only want to fit in, are thrust directly in the

spotlight. For Jacob's mother, it's a brutal reminder of the intolerance and misunderstanding that always threaten her family. For his brother, it's another indication why nothing is normal because of Jacob. And for the frightened small town, the soul-searing question looms: Did Jacob commit murder? *House Rules* is "a provocative story in which [Picoult] explores the pain of trying to comprehend the people we love—and reminds us that the truth often travels in disguise" (People).
