No Longer Human *New Directions Publishing*

A young man describes his torment as he struggles to reconcile the diverse influences of Western culture and the

traditions of his own Japanese heritage

No Longer Human (Confessions of a Faulty Man)

No Longer Human

No Longer Human *New Directions Publishing*

The poignant and fascinating story of a young man who is caught between the breakup of the traditions of a northern Japanese aristocratic family and the impact of Western ideas. Portraying himself as a failure, the protagonist of Osamu Dazai's *No Longer Human* narrates a seemingly normal life even while he feels himself incapable of understanding human beings. Oba Yozo's attempts to reconcile himself to the world around him begin in early childhood, continue through high school, where he becomes a "clown" to mask his alienation, and eventually lead to a failed suicide attempt as an adult. Without sentimentality, he records the casual cruelties of life and its fleeting moments of human connection and tenderness.

No Longer Human *Litres*

Перевод: Mary Fox *No Longer Human* (1948, *Ningen Shikkaku / A Shameful Life/ Confessions of a Faulty Man*) was an attack on the traditions of Japan, capturing the postwar crisis of Japanese cultural identity. Framed by an epilogue and prologue, the story is told in the form three notebooks left by Ōba Yōzō, whose calm exterior hides his tormented soul. Osamu DAZAI was a Japanese author who is considered one of the foremost fiction writers of 20th-century Japan. A number of his most popular works, such as *Shayō* (*The Setting Sun*) and *Ningen Shikkaku* (*No Longer*

Dazai's life ended in double-suicide with his married mistress. In many books Dazai used biographical material from his own family background, and made his self-destructive life the subject of his books.

No Longer Human *VIZ Media LLC*

Mine has been a life of much shame. I can't even guess myself what it must be to live the life of a human being. Plagued by a maddening anxiety, the terrible disconnect between his own concept of happiness and the joy of the rest of the world, Yozo Oba plays the clown in his dissolute life, holding up a mask for those around him as he spirals ever downward, locked arm-in-arm with death. Osamu Dazai's immortal—and supposedly autobiographical—work of Japanese literature, is perfectly adapted here into a manga by Junji Ito. The imagery wrenches open the text of the novel one line at a time to sublimate Yozo's mental landscape into something even more delicate and grotesque. This is the ultimate in art by Ito, proof that nothing can surpass the terror of the human psyche. -- VIZ Media

Stones To Abbigale

Onision

I want to be direct, my name is Greg. I go by "Onision" online. This book is made up of events that occurred in my own life mixed with fiction from the made up life of James. James is essentially a better version of myself. His home, his school & his life all resemble my own at his age. The people James analyzes and is surrounded by are not so

unlike those I've known as well. I have experienced much of the loss James has however his happier moments are more often than not also mine. I want to share my story without it being purely non-fiction. I simply felt this approach would make for a far better book. Stones to Abbigale is not just my book, it is a piece of who I am.

Rashomon and Other Stories
Tuttle Publishing

"Clear-eyed glimpses of human behavior in the extremities of poverty, stupidity, greed, vanity... Story-telling of an unconventional sort, with most of the substance beneath the shining, enameled surface." —The New York Times Book Review Widely acknowledged as "the father of the Japanese short story," Ryunosuke Akutagawa remains one of the most influential Japanese writers of all time. *Rashomon and Other Stories*, a collection of his most celebrated work, resonates as strongly today as when it first published a century ago. This volume includes: In a Grove: An iconic, contradictory tale of the murder of a samurai in a forest near Kyoto told through three varying accounts *Rashomon*: A masterless samurai contemplates following a life of crime as he encounters an old woman at the old *Rashomon* gate outside Kyoto *Yam Gruel*: A low-ranking court official laments his position all the while yearning for his favorite, yet humble, dish *The Martyr*: Set in Japan's Christian missionary era, a young boy is excommunicated for fathering an illegitimate child, but not all is as it seems *Kesa and Morito*: An adulterous couple plots to kill the woman's husband as the situation threatens to spin out of control *The Dragon*: A priest concocts a prank involving a dragon, but the tall tale begins to take on a life of its own With a new foreward by noted Akutagawa scholar Seiji Lippit, this updated version of a classic collection is

a an excellent, readable introduction to Japanese literature.

The Setting Sun *New Directions Publishing*

This powerful novel of a nation in social and moral crisis was first published by New Directions in 1956. Set in the early postwar years, it probes the destructive effects of war and the transition from a feudal Japan to an industrial society. Ozamu Dazai died, a suicide, in 1948. But the influence of his book has made "people of the setting sun" a permanent part of the Japanese language, and his heroine, Kazuko, a young aristocrat who deliberately abandons her class, a symbol of the anomie which pervades so much of the modern world.

The Dawn of Everything

A New History of Humanity *Farrar, Straus and Giroux*

A dramatically new understanding of human history, challenging our most fundamental assumptions about social evolution—from the development of agriculture and cities to the origins of the state, democracy, and inequality—and revealing new possibilities for human emancipation. For generations, our remote ancestors have been cast as primitive and childlike—either free and equal innocents, or thuggish and warlike. Civilization, we are told, could be achieved only by sacrificing those original freedoms or, alternatively, by taming our baser instincts. David Graeber and David Wengrow show how such theories first emerged in the eighteenth century as a conservative reaction to powerful critiques of European society posed by Indigenous

observers and intellectuals. Revisiting this encounter has startling implications for how we make sense of human history today, including the origins of farming, property, cities, democracy, slavery, and civilization itself. Drawing on pathbreaking research in archaeology and anthropology, the authors show how history becomes a far more interesting place once we learn to throw off our conceptual shackles and perceive what's really there. If humans did not spend 95 percent of their evolutionary past in tiny bands of hunter-gatherers, what were they doing all that time? If agriculture, and cities, did not mean a plunge into hierarchy and domination, then what kinds of social and economic organization did they lead to? The answers are often unexpected, and suggest that the course of human history may be less set in stone, and more full of playful, hopeful possibilities, than we tend to assume. The Dawn of Everything fundamentally transforms our understanding of the human past and offers a path toward imagining new forms of freedom, new ways of organizing society. This is a monumental book of formidable intellectual range, animated by curiosity, moral vision, and a faith in the power of direct action. Includes Black-and-White Illustrations

Serotonin

A Novel *Farrar, Straus and Giroux*

Michel Houellebecq's *Serotonin* is a caustic, frightening, hilarious, raunchy, offensive, and politically incorrect novel about the decline of Europe, Western civilization, and humanity in general. Deeply depressed by his romantic and professional failures, the aging hedonist and agricultural engineer Florent-Claude Labrouste feels he is "dying of sadness."

He hates his young girlfriend, and the feeling is almost certainly mutual; his career is pretty much over; and he has to keep himself thoroughly medicated to cope with day-to-day life. Suffocating in the rampant loneliness, consumerism, hedonism, and sprawl of the city, Labrouste decides to head for the hills, returning to Normandy, where he once worked promoting regional cheeses and where he was once in love, and even—it now seems—happy. There he finds a countryside devastated by globalization and by European agricultural policies, and encounters farmers longing, like Labrouste himself, for an impossible return to a simpler age. As the farmers prepare for what might be an armed insurrection, it becomes clear that the health of one miserable body and of a suffering body politic are not so different, and that all parties may be rushing toward a catastrophe that a whole drugstore's worth of antidepressants won't make bearable.

Everybody Counts

A Report to the Nation on the Future of Mathematics Education *National Academies Press*

Mathematics is the key to opportunity. No longer only the language of science, mathematics is now essential to business, finance, health, and defense. Yet because of the lack of mathematical literacy, many students are not prepared for tomorrow's jobs. *Everybody Counts* suggests solutions. Frame by Frame

A Materialist Aesthetics of Animated Cartoons *University of California Press*

At publication date, a free ebook version of this title will be available through Luminos, University of California Press's Open Access publishing program. Visit www.luminosoa.org to learn more. In this beautifully written and deeply

researched study, Hannah Frank provides an original way to understand American animated cartoons from the Golden Age of animation (1920–1960). In the pre-digital age of the twentieth century, the making of cartoons was mechanized and standardized: thousands of drawings were inked and painted onto individual transparent celluloid sheets (called “cels”) and then photographed in succession, a labor-intensive process that was divided across scores of artists and technicians. In order to see the art, labor, and technology of cel animation, Frank slows cartoons down to look frame by frame, finding hitherto unseen aspects of the animated image. What emerges is both a methodology and a highly original account of an art formed on the assembly line.

How Photography Became Contemporary Art

Inside an Artistic Revolution from Pop to the Digital Age *Yale University Press*

A leading critic's inside story of “the photo boom” during the crucial decades of the 1970s and 80s When Andy Grundberg landed in New York in the early 1970s as a budding writer, photography was at the margins of the contemporary art world. By 1991, when he left his post as critic for the New York Times, photography was at the vital center of artistic debate. Grundberg writes eloquently and authoritatively about photography's “boom years,” chronicling the medium's increasing role within the most important art movements of the time, from Earth Art and Conceptual Art to performance and video. He also traces photography's embrace by museums and galleries, as well as its politicization in the culture wars of the 80s and 90s. Grundberg reflects on the landmark exhibitions that defined the moment and his encounters with the work of leading photographers—many of whom he knew personally—including Gordon Matta-Clark, Cindy Sherman, and Robert Mapplethorpe. He navigates crucial themes such as photography's relationship to theory as well as feminism and artists of color. Part

memoir and part history, this perspective by one of the period's leading critics ultimately tells a larger story about the crucial decades of the 70s and 80s through the medium of photography.

It Ends With Us

The emotional #1 Sunday Times bestseller *Simon and Schuster*

THE TIKTOK SENSATION 'A brave and heartbreaking novel that digs its claws into you and doesn't let go, long after you've finished it' Anna Todd, author of the *After* series 'A glorious and touching read, a forever keeper' USA Today 'Will break your heart while filling you with hope' Sarah Pekkanen, *Perfect Neighbors* SOMETIMES THE ONE WHO LOVES YOU IS THE ONE WHO HURTS YOU THE MOST. Lily hasn't always had it easy, but that's never stopped her from working hard for the life she wants. She's come a long way from the small town in Maine where she grew up - she graduated from college, moved to Boston, and started her own business. So when she feels a spark with a gorgeous neurosurgeon named Ryle Kincaid, everything in Lily's life suddenly seems almost too good to be true. Ryle is assertive, stubborn, maybe even a little arrogant. He's also sensitive, brilliant, and has a total soft spot for Lily, but Ryle's complete aversion to relationships is disturbing. Even as Lily finds herself becoming the exception to his "no dating" rule, she can't help but wonder what made him that way in the first place. As questions about her new relationship overwhelm her, so do thoughts of Atlas Corrigan - her first love and a link to the past she left behind. He was her kindred spirit, her protector. When Atlas suddenly reappears, everything Lily has built with

Ryle is threatened. With this bold and deeply personal novel, *It Ends With Us* is a heart-wrenching story and an unforgettable tale of love that comes at the ultimate price.

The Paranoid Style in American Politics *Vintage*

This timely reissue of Richard Hofstadter's classic work on the fringe groups that influence American electoral politics offers an invaluable perspective on contemporary domestic affairs. In *The Paranoid Style in American Politics*, acclaimed historian Richard Hofstadter examines the competing forces in American political discourse and how fringe groups can influence — and derail — the larger agendas of a political party. He investigates the politics of the irrational, shedding light on how the behavior of individuals can seem out of proportion with actual political issues, and how such behavior impacts larger groups. With such other classic essays as "Free Silver and the Mind of 'Coin' Harvey" and "What Happened to the Antitrust Movement?", *The Paranoid Style in American Politics* remains both a seminal text of political history and a vital analysis of the ways in which political groups function in the United States.

English as a Global Language *Cambridge University Press*

David Crystal's classic *English as a Global Language* considers the history, present status and future of the English language, focusing on its role as the leading international language. English has been deemed the most 'successful' language ever, with 1500 million speakers internationally, presenting a difficult task to those who wish to investigate it in its entirety. However,

Crystal explores the subject in a measured but engaging way, always backing up observations with facts and figures. Written in a detailed and fascinating manner, this is a book written by an expert both for specialists in the subject and for general readers interested in the English language.

The Insect Crisis: The Fall of the Tiny Empires That Run the World *W. Norton & Company*

A devastating examination of how collapsing insect populations worldwide threaten everything from wild birds to the food on our plate. From ants scurrying under leaf litter to bees able to fly higher than Mount Kilimanjaro, insects are everywhere. Three out of every four of our planet's known animal species are insects. In *The Insect Crisis*, acclaimed journalist Oliver Milman dives into the torrent of recent evidence that suggests this kaleidoscopic group of creatures is suffering the greatest existential crisis in its remarkable 400-million-year history. What is causing the collapse of the insect world? Why does this alarming decline pose such a threat to us? And what can be done to stem the loss of the miniature empires that hold aloft life as we know it? With urgency and great clarity, Milman explores this hidden emergency, arguing that its consequences could even rival climate change. He joins the scientists tracking the decline of insect populations across the globe, including the soaring mountains of Mexico that host an epic, yet dwindling, migration of monarch butterflies; the verdant countryside of England that has been emptied of insect life; the gargantuan fields of U.S. agriculture that have proved a killing ground for bees; and an offbeat experiment in Denmark that shows there

aren't that many bugs splattering into your car windshield these days. These losses not only further tear at the tapestry of life on our degraded planet; they imperil everything we hold dear, from the food on our supermarket shelves to the medicines in our cabinets to the riot of nature that thrills and enlivens us. Even insects we may dread, including the hated cockroach, or the stinging wasp, play crucial ecological roles, and their decline would profoundly shape our own story. By connecting butterfly and bee, moth and beetle from across the globe, the full scope of loss renders a portrait of a crisis that threatens to upend the workings of our collective history. Part warning, part celebration of the incredible variety of insects, *The Insect Crisis* is a wake-up call for us all.

The State of the World's Land and Water Resources for Food and Agriculture

Managing Systems at Risk *Routledge*

The State of the World's Land and Water Resources for Food and Agriculture is FAO's first flagship publication on the global status of land and water resources. It is an 'advocacy' report, to be published every three to five years, and targeted at senior level decision makers in agriculture as well as in other

sectors. SOLAW is aimed at sensitizing its target audience on the status of land resources at global and regional levels and FAO's viewpoint on appropriate recommendations for policy formulation. SOLAW focuses on these key dimensions of analysis: (i) quantity, quality of land and water resources, (ii) the rate of use and sustainable management of these resources in the context of relevant socio-economic driving factors and concerns, including food security and poverty, and climate change. This is the first time that a global, baseline status report on land and water resources has been made. It is based on several global spatial databases (e.g. land suitability for agriculture, land use and management, land and water degradation and depletion) for which FAO is the world-recognized data source. Topical and emerging issues on land and water are dealt with in an integrated rather than sectoral manner. The implications of the status and trends are used to advocate remedial interventions which are tailored to major farming systems within different geographic regions.

No Longer Human

Early Light *Storybook ND*

Early Light gathers three tales by Osamu Dazai, author of the wildly popular *No Longer Human*

The Book of Job *Princeton University Press*

The life and times of this iconic and enduring biblical book *The book of Job* raises stark questions about the meaning of innocent suffering and the relationship of the human to the divine, yet it is also one of the Bible's most obscure and paradoxical books. Mark

Larrimore provides a panoramic history of this remarkable book, traversing centuries and traditions to examine how Job's trials and his challenge to God have been used and understood in diverse contexts, from commentary and liturgy to philosophy and art. Larrimore traces Job's reception by figures such as Gregory the Great, William Blake, and Elie Wiesel, and reveals how Job has come to be viewed as the Bible's answer to the problem of evil and the perennial question of why a God who supposedly loves justice permits bad things to happen to good people.

Crackling Mountain and Other Stories *Tuttle Publishing*

Crackling Mountain and Other Stories features eleven outstanding works by Osama Dazai, widely regarded as one of the 20th century Japan's most gifted writers. Dazai experimented with a wide variety of short story styles and brought to each a sophisticated sense of humor, a broad empathy for the human condition, and a tremendous literary talent. The eleven stories in this collection of Japanese literature present the most fully rounded portrait available of a tragic, multifaceted genius of modern Japanese letters.

Star *New Directions Publishing*

For the first time in English, a glittering novella about stardom from "one of the greatest avant-garde Japanese writers of the twentieth century" (Judith Thurman, *The New Yorker*) All eyes are on Rikio. And he likes it, mostly. His fans cheer, screaming and yelling to attract his attention—they would kill for a moment alone with him. Finally the director sets up the shot, the camera begins to roll, someone yells "action"; Rikio, for a moment, transforms into another being,

a hardened young yakuza, but as soon as the shot is finished, he slumps back into his own anxieties and obsessions. Being a star, constantly performing, being watched and scrutinized as if under a microscope, is often a drag. But so is life. Written shortly after Yukio Mishima himself had acted in the film

“Afraid to Die,” this novella is a rich and unflinching psychological portrait of a celebrity coming apart at the seams. With exquisite, vivid prose, Star begs the question: is there any escape from how we are seen by others?
