The role of veterinary teams in society by using a 'One Health, One Welfare' approach is consistent with the United Nations Sustainable Development Goals in animal-related areas by helping to "build economic growth and address a range of social needs including education, health, social protection, and job opportunities, while tackling climate change and environmental protection" (United Nations, 2016).

One health, one welfare | Veterinary Practice

Although the concept of One Health is not new—the theory was supported by William Osler and Rudolf Virchow, the Father of Comparative Pathology, and re-articulated in Calvin Schwabe's 'Veterinary Medicine and Human Health' 6 in 1984—our increasing interdependence with animals and their products has spurred the medical and veterinarian professions to readdress such an approach.

One Health--Summary | American Veterinary Medical Association

Although the term "One Health" is fairly new, the concept has long been recognized both nationally and globally. Since the 1800s, scientists have noted the similarity in disease processes among animals and humans, but human and animal medicine were practiced separately until the 20th century.
