Taming the Flood: Rivers, Wetlands and the Centuries-Old ...

Synopsis. The last forty years have seen the destruction of a huge proportion of flora and fauna in marshes, wet meadows, ponds, and river banks. This has happened largely as a result of enormous public investment in land drainage, carried out by water authorities, councils, and individual farmers. As a practical landscape architect working in the Water Industry, Jeremy Purseglove has been actively involved in building a wider brief for land drainage engineers so that they can enhance ...

Taming the Flood on Apple Books

As a practical landscape architect and ecologist working in the water industry, Jeremy Purseglove has been actively involved in land drainage engineering to try to enhance, rather than destroy, the heritage of our rivers and wetlands. Taming the Flood draws extensively on this experience, analysing many of the conflicting demands made on rivers and wetlands. He charts the conservation, agriculture and development, and outlines practical proposals for the protection and use of these sensitive ...
