EMD "SW1000" Locomotives The EMD SW1000 was the first model the builder produced originally designed to use its new model 645 prime mover. Built during the mid-1960s it was essentially a second-generation unit. The model featured classic SW series styling (although slight changes were made to the overall carbody) and size with reasonable power.

EMD "SW1000" Locomotives: Specifications, Photos, Roster

The EMD SW1001 was essentially a variant of the SW1000 model. The switcher was constructed two years following its counterpart in the late 1960s and came about because industries disliked the restyling of the SW1000 because the Electro-Motive Division (EMD) situated the walkways and cab eaves higher than on previous models, which didn't allow the locomotive to work efficiently (or even fit) in ...
