Oxygen Administration For Divers

Oxygen Administration
The administration of oxygen is a way of increasing the effectiveness of first aid treatment for diving accidents. Being qualified in its use gives you the confidence to treat a diving-related injury either on a boat or on dry land. O2 Admin consolidates the life support skills taught in BSAC's Diver Training Programme.

Oxygen Administration -

British Sub-Aqua Club

Our course in Oxygen Administration for Divers is based on our standard Oxygen Administration course, but takes into consideration underpinning knowledge that qualified divers will have from their diver training, particularly in areas around cylinder safety, and anatomy, physiology, and the effects of barotrauma and decompression sickness. It also introduces and covers equipment that tends to be specific to oxygen administration equipment found in dive kits, that can both conserve oxygen ...
