Practice development has a long association with the development and provision of person-centred care, cultures and ways of working.

Contemporary practice development is systematic, can contribute to the body of knowledge, focuses on using the workplace as the main resource for learning and development, and seeks to improve health and social care through developing and sustaining person-centred cultures.

An overview of practice development | Nurse Key

1. In the example below, the action-reaction pair is shown by the arrows (vectors), and the action-reaction described in words. In (a) through (g) draw the other arrow (vector) and state the reaction to the given action. Then make up your own example in (h).

Example: Fist hits wall Head bumps ball
Windshield hits bug Wall hits fist a. b.
