Economics Study Guide. Flashcards | Quizlet

Economics is divided into two general
categories: microeconomics and
macroeconomics. One looks at the
individual markets while the other looks
at an entire economy. From there, we
can narrow economics into a number of

subfields of study. These include econometrics, economic development, agricultural economics, urban economics, and much more.

Economics for Beginners: Understanding the Basics

Macroeconomics. The prefix macro means large, indicating that macroeconomics is concerned with the study of the market system on a large scale. Macroeconomics considers the aggregate performance of all markets in the market system and is concerned with the choices made by the large subsectors of the economy—the household sector, which includes all consumers; the business sector, which includes all firms; and the government sector, which includes all government agencies.
