Why the P in the DPT Vaccination May be Hazardous to Your Child's Health *Penguin*

Every week, tens of thousands of

children across America are injected with the DPT (diphtheria-pertussis-tetanus) vaccine. The law requires it, and most children will get four DPT shots before they are two years old. But what if one of the components of the vaccine was not safe? What if it caused not only pain, swelling, screaming, and high fever, but also shock, convulsions, brain damage, and even death? And, to make matters worse, what if there were a safer alternative but parents didn't know about it? Wouldn't the government require the drug manufacturers to produce the safer vaccine to protect the lives of the children who might otherwise suffer the shot's crippling side effects? The answer is, unfortunately, no. A Shot in the Dark is a chilling account of just how dangerous the whole-cell pertussis

vaccine (the "P" part of the DPT shot) has proven to be. It provides accurate research into the history of the vaccine's development and usage. It exposes the roles played by the FDA and drug companies. It tells the tragic stories of the young victims of the vaccine. This book is also a guide for rightfully concerned parents who are looking for answers to important questions. What are the warning signs to look for to tell if your child is likely to be sensitive to the vaccine? What should parents ask their doctors about the vaccine and their child's medical profile? What is being done, here and in other countries, to combat this frightening situation? What can parents do now to help? *A Shot in the Dark* is a responsible, eye-opening look at a potential problem that every

parent of every young child living in this country must face. Armed with the facts in this important book, parents will be able to make informed decisions about their real medical options. Book jacket.

A Constable Twitten Mystery *Bloomsbury Publishing USA*

The charming first novel in a new comic crime series from New York Times bestselling author Lynne Truss. It's 1957, and Inspector Steine rather enjoys his life as a policeman in the seaside British town of Brighton. As far as he's concerned, the town has no criminals, which means no crime, and no stress. But much to Steine's irritation, there's a new constable in town-the keen and

clever Constable Twitten, who sees patterns in small, meaningless burglaries and insists on the strange notion that perhaps all the crime has not been cleared out quite as effectively as Steine thinks. Worse yet, some of Constable Twitten's ideas could be correct: when renowned theater critic A. S. Crystal arrives in Brighton to tell the detective the secret he knows about the still-unsolved Aldersgate Stick-Up Case of 1945, he's shot dead in his seat. With a new murder, a new constable, and a new lead on the decades-old mystery, the Brighton Police Force must scramble to solve this delightfully droll mystery in "the funniest crime novel of 2018" (Wall Street Journal).

A Comedy in Three Acts *Samuel French, Inc.*

On Broadway, Julie Harris played the good hearted and guileless child of nature who is hauled before the magistrate on a charge of murder, having been found unconscious, nude, and clutching a gun, with her lover dead beside her. What is most shocking to the magistrate is the complete frankness with which she describes her life as a parlor maid and her affairs with both the dead chauffeur and her aristocratic employer. She is so ingenious that the magistrate, at the risk of his juridical neck, decides that she could not have committed the murder. The investigation expands to include both the aristocratic employer, who cannot answer yes or no in less than a paragraph and whose own

polysyllables make him yawn, and his wife who descended in direct line from Attila the Hun and looks it. She has been having an affair with her husband's best friend. The magistrate finds the right culprit and the open hearted little parlor maid offers herself to him as a present.

Blackbridge Security, Book 2

As an IT expert and hacker extraordinaire, Wren Nelson is no stranger to discovering all sorts of secrets online. He's a warrior...when he's behind his computer, that is. And awkward at best in social situations. His long hours with Blackbridge Security don't really provide many opportunities to go out and meet people. So what is he supposed to do when a wrong delivery--a questionably large box of bedroom toys--ends up in his hands instead of its

intended target? Online stalking has always been his go-to to accumulate information on people, but only seeing Whitney through digital displays isn't enough. Approaching her doesn't seem like the best plan either. What he doesn't know is that this woman is possibly the only one in existence able to give him a run for his money.

A Shot in the Dark *Hesperus Press*

H.H. Munro's razor-toothed wit, discerning eye, and taste for the absurd are delightfully evident in this collection of little-known tales. In Saki's world, a despotic dog becomes his owner's master, a rural community is hoodwinked into believing in the predictive powers of a pair of friends, and Eve stubbornly refuses to touch the Forbidden Fruit. Although unquestionably of its time, each story ridicules the follies of society—follies still all too clearly familiar today. Best known to the world as Saki, Scottish writer

Hector Hugo Munro won fame by skewering the British upper class in his chronicles of Clovis and Reginald.

Ten of the most intriguing unsolved New Zealand murders from the Jazz age are reopened and reinvestigated, using modern techniques. A Christchurch publican shot in a crowded pub, an Indian fruiterer beaten to death in Hawera and a trail of destruction left across Waikato and the Bay of Plenty by a mass murderer - these are just some of the fascinating unsolved murders profiled in *Shot in the Dark*. While the ten cases profiled may sound like very modern crimes, they were all committed in the years between the First and

Second World Wars. Scott Bainbridge reopens each case by examining the victims' lives, the events leading up to the crimes, the original police investigations and the conclusions reached by police at the time. He then applies modern investigative techniques to the cases sometimes coming to startling conclusions.

Japan, Zen, and the West *University of Chicago Press*

In the years after World War II, Westerners and Japanese alike elevated Zen to the quintessence of spirituality in Japan. Pursuing the sources of Zen as a Japanese ideal, Shoji Yamada uncovers the surprising role of two cultural

touchstones: Eugen Herrigel's *Zen in the Art of Archery* and the Ryoanji dry-landscape rock garden. Yamada shows how both became facile conduits for exporting and importing Japanese culture. First published in German in 1948 and translated into Japanese in 1956, Herrigel's book popularized ideas of Zen both in the West and in Japan. Yamada traces the prewar history of Japanese archery, reveals how Herrigel mistakenly came to understand it as a traditional practice, and explains why the Japanese themselves embraced his interpretation as spiritual discipline. Turning to Ryoanji, Yamada argues that this epitome of Zen in fact bears little relation to Buddhism and is best understood in relation to Chinese myth. For much of its modern history, Ryoanji

was a weedy, neglected plot; only after its allegorical role in a 1949 Ozu film was it popularly linked to Zen. Westerners have had a part in redefining Ryoanji, but as in the case of archery, Yamada's interest is primarily in how the Japanese themselves have invested this cultural site with new value through a spurious association with Zen.

Living Pharmaceutical Lives *Routledge*

Increasingly, pharmaceuticals are

available as the solutions to a wide range of human health problems and health risks, minor and major. This book portrays how pharmaceutical use is, at once, a solution to, and a difficulty for, everyday life. Exploring lived experiences of people at different stages of the life course and from different countries around the world, this collection highlights the benefits as well as the challenges of using medicines on an everyday basis. It raises questions about the expectations associated with the use of medications, the uncertainty about a condition or about the duration of a medicine regimen for it, the need to negotiate the stigma associated with a condition or a type of medicine, the need to access and pay for medicines and the need to schedule medicine use

appropriately, and the need to manage medicines' effects and side effects. The chapters include original empirical research, literature review and theoretical analysis, and convey the sociological and phenomenological complexity of 'living pharmaceutical lives'. This book is of interest to all those studying and researching social pharmacy and the sociology of health and illness.

Shot in the Heart *Anchor*

NATIONAL BOOK CRITICS CIRCLE AWARD
WINNER WINNER OF THE LOS ANGELES
TIMES BOOK PRIZE Haunting, harrowing,
and profoundly affecting, *Shot in the
Heart* exposes and explores a dark vein
of American life that most of us would
rather ignore. It is a book that will leave

no reader unchanged. Gary Gilmore, the infamous murderer immortalized by Norman Mailer in *The Executioner's Song*, campaigned for his own death and was executed by firing squad in 1977. Writer Mikal Gilmore is his younger brother. In *Shot in the Heart*, he tells the stunning story of their wildly dysfunctional family: their mother, a black sheep daughter of unforgiving Mormon farmers; their father, a drunk, thief, and con man. It was a family destroyed by a multigenerational history of child abuse, alcoholism, crime, adultery, and murder. Mikal, burdened with the guilt of being his father's favorite and the shame of being Gary's brother, gracefully and painfully relates a murder tale "from inside the house where murder is born... a house that, in

some ways, [he has] never been able to leave." Shot in the Heart is the history of an American family inextricably tied up with violence, and the story of how the children of this family committed murder and murdered themselves in payment for a long lineage of ruin.

A Shot in the Dark *Tate Publishing & Enterprises*

The book is the true life story of Solon B. Lewis, a County Rural Policeman, Deputy Sheriff, and South Carolina Governors Officer in the 1920s, 1930s, and 1940s in Marion County South Carolina. Solon was shot 2 times in the line of duty, was

forced to kill an armed robber, and faced many personal and professional tragedies in his life because he fought to clean out his community of organized crime, bootleggers, murderers, and robbers. This is a fascinating true story of one man's life during the Prohibition era and behind the scenes look at local, county, and state politics. Solon Lewis captured many high profile criminals of the time using the art of fingerprint science. Solon became a fingerprint identification expert at a time when the FBI was just experimenting with the science. Solon Lewis would compile over 525 fingerprints of known criminals from the area, and he would be called upon by the FBI and other law enforcement officials to help them solve cases. The book covers some of the most

interesting cases Lewis and other officers investigated in the rural farm communities of Marion County, SC. I am the grandson of Solon B. Lewis Sr., and as a child, I would hear many fascinating stories from my father and his brothers about Solon's shootouts with criminals and all of the tragedies he faced in his life. My research provides official documents, letters, and actual newspaper articles that supports this true story. This is the life of a man faced with corruption, political fighting, and crime of that era.

A Police Officer's Firsthand Account of the Breonna Taylor Raid *Dw Books*

You might think you know what happened in the tragic shooting of Breonna Taylor, but no one knows that better than the lead officer on the scene, Sergeant John Mattingly. However, with the full support of the mainstream media, Black Lives Matter activists and other leftist groups immediately pounced on the tragedy, exploiting

Breonna's death and twisting the story--in some cases, telling outright lies--to bolster a shameful "All Cops Are Bastards" narrative and radical "Defund the Police" agenda. In *12 Seconds in the Dark: A Police Officer's Firsthand Account of the Breonna Taylor Raid*, Sgt. Mattingly tells what really happened that horrible night. A twenty-year police veteran with an impeccable record, Mattingly takes readers inside the Louisville Metro Police Department's response to suspected criminal activity that night, debunking lie after lie about what happened, including: The officers followed standard forced-entry protocol--and even gave the suspect more time than usual to respond before entering. Taylor's boyfriend inside the apartment most certainly knew it was the police

who were at his door, despite falsely claiming the police did not announce or identify themselves. Breonna should not have died that night, but her death did not happen the way the media told you. In this gritty and suspenseful true story, Mattingly sets the record straight on this shocking story that gripped the nation.

The 1967 Murder of Benjamin Brown *Xlibris Corporation*

When all is said and done, one fact remains. On the night of May 11, 1967, a

crowd of protestors marched east on Lynch Street, throwing debris at a line of officers. Shots rang out, several people were wounded, one fatally. Who fired the shot in the dark that killed Benjamin Brown, a supposedly innocent bystander who lost his life on his twenty-second birthday? Who knows what really happened that night? Eyewitnesses gave their accounts, then turned around and recanted those statements. This book recounts the happenings of that momentous night from an objective eye. A true-to-life account that will hopefully remind us of justice, If not, bring closure to wounds left by injustice.

She could see the lights of the train and the parking lot, but where she was

standing was pitch black. She took out her silver vial and unscrewed the top. She scooped out a pile of cocaine with the little spoon and snorted it up one nostril, then the other. It was an exquisite moment as the drug charged through her brain like a stampede of white lightning. Hot damn, she whispered, and gave her head a little shake as she exhaled. She felt so good. So perfect. Because of the deal she'd just pulled off . And the money she was going to make. And handsome Marc, waiting for her in the City with all of that cocaine. A spasm of euphoria coursed through her body in a delicious wave of pleasure. Neurons and endorphins danced in her brain like fi reworks on the Fourth of July. She'd never been so happy. She's about to light a cigarette

when the lights start to dim. It happens so quickly there's no time to react. There's just a hint of pain, but it's too brief to register. Then there's nothing. Only blackness. And just like that Sandra Ellison's life is at an end. Like someone reached in and turned off the set. Her set. That's how quickly it happened. She was dead before she hit the ground.

An ingenious detective finds the fatal chord in a fugue of death! note: a short story Excerpt "Dear me, Kit, this visitor certainly is in a hurry." It was eleven P.M. the front door of Dr. Feather's apartment was ringing with steady violence. In his faded old dressing gown and carpet slippers little Dr. Feather sat expectant, while Kit, his small, dark-haired young daughter, went to the door. The visitor was Detective-sergeant Blaine, a plainclothes police detective. Dr. Feather had known him for many

years. "Well, well, Sergeant. Come in. Sit down-or are you in a rush? You sounded-" "Murder case," Blaine said. "Mighty glad you haven't gone to bed, Dr. Feather. I sort of hated-" "Oh, that's all right, Sergeant. Murder-" "Right around the corner from here. So I thought, instead of phoning-" "Of course, Sergeant. You think I can be of help? That's fine. Get my shoes, Kit. Hurry, child-can't you see the sergeant is in a rush?" "Yes, Father." "An old musician got murdered," Blaine was saying. "It happened only an hour ago. Captain Mac phoned for me-looks like an inside job. If it is, we got the murderer." "Musician, Sergeant? A musician got murdered?" "Yeah. Maybe you've heard of him, an old-timer. Antoine Giorni. Never heard of him myself, but-" "Antoine Giorni! Dear

me, Sergeant, why of course I've heard of him. Twenty years ago, before my girl Kit was born, he was a famous concert pianist. Good gracious, how that takes one back! Why, I can I remember then Antoine Giorni was-" "Yeah. Well, that's him. We got four suspects-two young men an' two young women. They was paired off when the shot was fired. Damn queer layout, Dr. Feather. Looks to me like one couple is innocent an' the other is lyin' its head off. But I'll be dogged if I can figure out which is which."

Making Records in Nashville, 1945-1955 *Vanderbilt University Press (TN)*

Book Plus CD. Martin Hawkins, co-author

of the landmark *Good Rockin' Tonight: Sun Records and the Birth of Rock & Roll*, describes the formation and the activities of local, independent recording companies in Nashville in the decade following World War II--the heyday of regional companies, before rock & roll and the eventual internationalization of the music business. These labels and their owners evolved from the local jukebox and amusements business and often featured truly local performers. They sometimes aspired to national status--and occasionally they achieved it. The book also describes the infrastructure they worked within and the personal stories of the main label owners and their performers. Finally, it examines the part the labels played in the emergence of Nashville as Music City

USA. The accompanying 20-song CD is the soundtrack to this fascinating story.

It was, as Rocco later described it, a hastily planned rescue mission that went downhill in a hurry. In the aftermath, his beloved girlfriend and her

The Collected Photography of David Arnoff

David Arnoff's photography sheds intimate new light on the music of the underground from the earliest days of punk to the present. Shot in black-and-white, his subjects display an instantly recognizable and effortless style and confidence. His subjects include such iconic bands and musicians as The Ramones, The Damned, The Buzzcocks, Nico, Patti Smith, The Stray Cats, Johnny Thunders, Blondie, The Dead Kennedys, Gang of Four, The Dead Boys, The Gun Club, Nick Cave, Devo, Slits, Siouxsie and the Banshees, the Specials, and many more. He has always sought out the bands and people whose music he

felt an affinity for, and photographed many of them just as they were starting out. "Cleveland is where I come from, which is no joke, despite what the cheap comedians say. It's as gritty as the blackened roadside snow and as soulful as the music it generated. I started out the same year that local disc jockey Alan Freed went on-air to introduce the world to the music that he called rock 'n roll. He soon shook things up further by unleashing it live and in person at the Moondog Coronation Ball. That first teenage bash turned into a riot from the off and the cops shut it down after only one song was played. Rock 'n roll had arrived in fine style. Of course, I was way too young to witness that initial blast, but that music was on the car radio, in the city air, and in my DNA, as the fella

says. I was there in spirit. And that's where my spirit remained, after I was dragged off as a kid to sunny California. I do not have a sunny disposition. L.A. and I did not take to each other. It was a bad situation. But eventually something came along to change things for the better. In 1976, The Pattie Smith Group came to town. Which is where this book begins."

A Shot in the Dark

The peacefulness of the small quiet town is disturbed in the middle of the night when a shot rings out but when the police come to investigate, at first, there are no signs of violence. Then, a trace of blood is found and it is human. There is no body, no cartridge case from the bullet, no one is brought to hospital with

a bullet wound and no one is reported missing. Detective Sergeant Rob Cording is put in charge of the case and he sends his men door to door to gather information from witnesses. When, a week later, a body is fished out of the sea, Cording begins to fit the clues together and the trail leads from the country where the crime was committed (which is never disclosed), across an ocean to Colombia, Venezuela and Holland.

Shot in the Dark

My new boss, the Head of the Murder Squad, Abbey who was the dayshift

supervising officer, was near pulling his hair out. He had been trying unsuccessfully, I might add, to pair me with a suitable partner. Whether it was just my abrasive personality or me coming from the undercover area where

you had to think on your feet; where you worked alone usually with your nominated partner being your 'catcher'. There in the background,
