History of Economic Analysis by Schumpeter Joseph ...

Economic history is the academic study of economies or economic events of the past. Research is conducted using a combination of historical methods, statistical methods and the application of economic theory to historical situations and institutions. The field can encompass a wide variety of topics, including equality, finance, technology, labor, and business. It emphasizes historicizing the economy itself, analyzing it as a dynamic force and attempting to provide insights into the way it is str

(PDF) Schumpeter and the History of Economic Thought

U.S. gross domestic product (GDP) by year is a good overview of economic growth in the United States. The table below presents the nation's GDP for each year since 1929 compared to major economic events. The table begins with the stock market crash of 1929 and goes through the subsequent Great Depression.
