And if you ever require help finding the best book, our knowledgeable staff is below to provide personalized referrals.

Coup D'État *Harvard University Press*
Edward Luttwak's shocking 1968 handbook showed, step-by-step,

how governments could be overthrown and inspired anti-coup precautions around the world. In addition to these instructions, his revised handbook offers a new way of looking at political power—one that considers the vulnerability of stable democracies after prolonged economic distress.

Coup D'État

A Practical Handbook

How to Stage a Military Coup

From Planning to Execution *Skyhorse Publishing Inc.*
Here is the handbook on violent overthrow of government--for everyone!

Seizing Power

The Strategic Logic of Military Coups *JHU Press*

In addition, Singh identifies three distinct types of coup dynamics, each with a different probability of success, based on where within the organization each coup originated: coups from top military officers, coups from the middle ranks, and mutinous coups from low-level soldiers.

Coup D's Etat

A Practical Handbook

The Democratic Coup D'État *Oxford University Press*

The term coup d'État--French for stroke of the state--brings to mind coups staged by power-hungry generals who overthrow the existing regime, not to democratize, but to concentrate power in their own hands as dictators. We assume all coups look the same, smell the same, and present the same threats to democracy. It's a powerful, concise, and self-reinforcing idea. It's also wrong. In *The Democratic Coup d'État*, Ozan Varol advances a simple, yet controversial, argument: Sometimes, a democracy is established through a military coup. Covering events from the Athenian Navy's stance in 411 B.C. against a tyrannical home government, to coups in the American colonies that ousted corrupt British governors, to twentieth-century coups that toppled dictators and established democracy in countries as diverse as Guinea-Bissau, Portugal, and Colombia, the book takes the reader on a gripping journey. Connecting the dots between these neglected events, Varol weaves a balanced narrative that challenges everything we thought we knew about military coups. In so doing, he tackles several baffling questions: How can an event as undemocratic as a military coup lead to democracy? Why would imposing generals-armed with tanks and guns and all-voluntarily surrender power to civilian politicians? What distinguishes militaries that help build democracies from those that destroy them? Varol's arguments made headlines across the globe in major media outlets and were cited critically in a public speech by Turkish President Recep Tayyip Erdogan. Written for a general audience, this book will entertain, challenge, and provoke, but more importantly, serve as a reminder of the imperative to question the standard narratives about our world and engage with all ideas, no matter how controversial.

Endangered American Dream *Simon and Schuster*

One of America's most thoughtful and provocative strategists exposes the economic and cultural assumptions that have driven the U.S. to the brink of social and financial collapse. Edward Luttwak reveals a forceful new policy that can reverse America's

decline.

The Rise of China vs. the Logic of Strategy *Harvard University Press*

As the rest of the world worries about what a future might look like under Chinese supremacy, Luttwak worries about China's own future prospects. Applying the logic of strategy for which he is well known, he argues that the world's second largest economy may be headed for a fall unless China's leaders check their military ambitions.

The Dictator's Handbook

Why Bad Behavior is Almost Always Good Politics *Public Affairs*

Explains the theory of political survival, particularly in cases of dictators and despotic governments, arguing that political leaders seek to stay in power using any means necessary, most commonly by attending to the interests of certain coalitions.

The Grand Strategy of the Roman Empire

From the First Century CE to the Third *JHU Press*

At the height of its power, the Roman Empire encompassed the entire Mediterranean basin, extending much beyond it from Britain to Mesopotamia, from the Rhine to the Black Sea. Rome prospered for centuries while successfully resisting attack, fending off everything from overnight robbery raids to full-scale invasion attempts by entire nations on the move. How were troops able to defend the Empire's vast territories from constant attacks? And how did they do so at such moderate cost that their treasury could pay for an immensity of highways, aqueducts, amphitheaters, city baths, and magnificent temples? In *The Grand Strategy of the Roman Empire*, seasoned defense analyst Edward N. Luttwak reveals how the Romans were able to combine military strength, diplomacy, and fortifications to effectively respond to changing threats. Rome's secret was not ceaseless fighting, but comprehensive strategies that unified force, diplomacy, and an immense infrastructure of roads, forts, walls, and barriers. Initially relying on client states to buffer attacks, Rome moved to a permanent frontier defense around 117 CE. Finally, as barbarians began to penetrate the empire, Rome fielded large armies in a strategy of "defense-in-depth," allowing invaders to pierce Rome's borders. This updated edition has been extensively revised to incorporate recent scholarship and archeological findings. A new preface explores Roman imperial statecraft. This illuminating book remains essential to both ancient historians and students of modern strategy.

The Grand Strategy of the Byzantine Empire *Harvard University Press*

In this book, the distinguished writer Edward Luttwak presents the grand strategy of the eastern Roman empire we know as Byzantine, which lasted more than twice as long as the more familiar western Roman empire. *The Grand Strategy of the Byzantine Empire* is a broad, interpretive account of Byzantine strategy, intelligence, and diplomacy over the course of eight centuries that will appeal to scholars, classicists, military history buffs, and professional soldiers.

Turbo-Capitalism

Winners and Losers in the Global Economy *Harper Perennial*

In this incisive and controversial exposé of the hidden effects of today's free-market capitalism, Edward Luttwak describes in

powerful detail how it vastly differs from the controlled capitalism that flourished from 1945 to the 1980s. Turbo-capitalism is private enterprise liberated from government regulation, unchecked by effective trade unions, unfettered by concerns for employees or communities, and unhindered by taxation or investment restrictions. The winners in this free-for-all are getting much richer, while the losers are becoming poorer and are forced by downsizing to take the traditional jobs of the underclass. Led by the United States, closely followed by Britain, turbo-capitalism is spreading fast throughout Europe, Asia, and the rest of the world without the two great forces that check its enormous power in the United States: a powerful Legal system and the stringent rules of American calvinism. Luttwak exposes the major societal upheavals and inequities turbo-capitalism causes and the broad dissatisfaction and anxiety that may result.

Strategy and History *Transaction Publishers*

Strategy

The Logic of War and Peace, Revised and Enlarged Edition *Harvard University Press*

"If you want peace, prepare for war." "A buildup of offensive weapons can be purely defensive." "The worst road may be the best route to battle." Strategy is made of such seemingly self-contradictory propositions, Edward Luttwak shows—they exemplify the paradoxical logic that pervades the entire realm of conflict. In this widely acclaimed work, now revised and expanded, Luttwak unveils the peculiar logic of strategy level by level, from grand strategy down to combat tactics. Having participated in its planning, Luttwak examines the role of air power in the 1991 Gulf War, then detects the emergence of "post-heroic" war in Kosovo in 1999—an American war in which not a single American soldier was killed. In the tradition of Carl von Clausewitz, *Strategy* goes beyond paradox to expose the dynamics of reversal at work in the crucible of conflict. As victory is turned into defeat by over-extension, as war brings peace by exhaustion, ordinary linear logic is overthrown. Citing examples from ancient Rome to our own days, from Barbarossa and Pearl Harbor down to minor combat affrays, from the strategy of peace to the latest operational methods of war, this book by one of the world's foremost authorities reveals the ultimate logic of military failure and success, of war and peace.

How to Prevent Coups d'État

Counterbalancing and Regime Survival *Cornell University Press*

In this lively and provocative book, Erica De Bruin looks at the threats that rulers face from their own armed forces. Can they make their regimes impervious to coups? *How to Prevent Coups d'État* shows that how leaders organize their coercive institutions has a profound effect on the survival of their regimes. When rulers use presidential guards, militarized police, and militia to counterbalance the regular military, efforts to oust them from power via coups d'état are less likely to succeed. Even as counterbalancing helps to prevent successful interventions, however, the resentment that it generates within the regular military can provoke new coup attempts. And because counterbalancing changes how soldiers and police perceive the costs and benefits of a successful overthrow, it can create incentives for protracted fighting that result in the escalation of a coup into full-blown civil war. Drawing on an original dataset of state security forces in 110 countries over a span of fifty years, as well as case studies of coup attempts in Asia, Africa, Latin

America, and the Middle East, De Bruin sheds light on how counterbalancing affects regime survival. Understanding the dynamics of counterbalancing, she shows, can help analysts predict when coups will occur, whether they will succeed, and how violent they are likely to be. The arguments and evidence in this book suggest that while counterbalancing may prevent successful coups, it is a risky strategy to pursue—and one that may weaken regimes in the long term.

Coup D'etat

The Technique of Revolution

Erdoğan's 'New' Turkey

Attempted Coup d'état and the Acceleration of Political Crisis *Routledge*

Demonstrating how Turkey's politics have developed, this book focuses on the causes and consequences of the failed coup d'état of 15 July 2016. The momentous event and its aftermath challenges us to ask if the coup was the cause of Turkey's present crisis, or simply an accelerant of trends already in motion, and thus a catalyst for the realization of Erdoğan's latent authoritarian impulses. Bringing together approaches from politics, sociology, history and anthropology, the chapters shed much-needed light on these crucial questions. They offer scholars and nonspecialists alike a comprehensive overview of the implications of the coup attempt and its aftermath on the issues of religion, democracy, the Kurds, the state, resistance and more besides. Its effects have been felt in almost every aspect of Turkish society from religion to politics, yet it came at a time when Turkey was already experiencing significant social and political turmoil under the increasingly authoritarian leadership of President Recep Tayyip Erdoğan. Readers interested in contemporary politics, Turkish and Middle Eastern studies will find the volume useful, as they ponder other cases in this era of democratic retrenchment and global turmoil.

Coup D'Etat

A Practical Handbook

The Pentagon and the Art of War

The Question of Military Reform *Simon & Schuster*

Coup D'État

A Critical Theoretical Synthesis *Peter Lang Pub Incorporated*

In this book the author analyzes the phenomenon of coup d'etat as a specific means of gaining state power. Though quite frequently found in practice, this phenomenon is almost completely unexplored in political theory. The author examines the concept of coup d'etat itself and its various connotations and compares coup d'etat with other forms of usurpation of state power, such as revolutions, rebellions, civil wars or guerilla warfare. He also deals with the technique of coup d'etat. The book includes an overview of accomplished coups d'etat since the beginning of the twentieth century and a list of present political leaders who came to power in this way."

An Army Like No Other

How the Israel Defense Forces Made a Nation *Verso Books*

A history of the IDF that argues that Israel is a nation formed by

its army. The Israeli army, officially named the Israel Defence Forces (IDF), was established in 1948 by David Ben-Gurion, Israel's first prime minister, who believed that 'the whole nation is the army'. In his mind, the IDF was to be an army like no other. It was the instrument that might transform a diverse population into a new people. Since the foundation of Israel, therefore, the IDF has been the largest, richest and most influential institution in Israel's Jewish society and is the nursery of its social, economic and political ruling class. In this fascinating history, Bresheeth charts the evolution of the IDF from the Nakba to the continued assaults upon Gaza, and shows that the state of Israel has been formed out of its wars. He also gives an account of his own experiences as a young conscript during the 1967 war. He argues that the army is embedded in all aspects of daily life and identity. And that we should not merely see it as a fighting force enjoying an international reputation, but as the central ideological, political and financial institution of Israeli society. As a consequence, we have to reconsider our assumptions on what any kind of peace might look like.

Mein Kampf *Diamond Pocket Books Pvt Ltd*

'MEIN KAMPF' is the autobiography of Adolf Hitler gives detailed insight into the mission and vision of Adolf Hitler that shook the world. This book is the merger of two volumes. The first volume of MEIN KAMPF' was written while the author was imprisoned in a Bavarian fortress. The book deals with events which brought the author into this blight. It was the hour of Germany's deepest humiliation, when Napoleon has dismembered the old German Empire and French soldiers occupied almost the whole of Germany. The books narrates how Hitler was arrested with several of his comrades and imprisoned in the fortress of Landsberg on the river Lech. During this period only the author wrote the first volume of MEIN KAMPF. The Second volume of MEIN KAMPF was written after release of Hitler from prison and it was published after the French had left the Ruhr, the tramp of the invading armies still echoed in German ears and the terrible ravages had plunged the country into a state of social and economic Chaos. The beauty of the book is, MEIN KAMPF is an historical document which bears the imprint of its own time. Moreover, Hitler has declared that his acts and 'public statements' constitute a partial revision of his book and are to be taken as such. Also, the author has translated Hitler's ideal, the Volkischer Staat, as the People's State. The author has tried his best making German Vocabulary easy to understand. You will never be satisfied until go through the whole book. A must read book, which is one of the most widely circulated and read books worldwide.

On the Meaning of Victory

Essays on Strategy *Simon & Schuster*

Examines the problems and possibilities facing the United States in the 1980s and 1990s, from the threat of nuclear war and the military's strategic thinking, to the interplay of politics, personality, and history

Understanding Mali

Connections and Confrontations Between the Tuareg, Islamist Rebels, and the Government

Understanding Mali is based around the three main players who took part in the 2012/2013 conflict in Mali: the Tuareg, Islamist rebels, and the Malian government. Tuareg rebels want their own state, or at least greater autonomy and political and economic opportunities; yet, there are many rivalries in the north between

and even among different ethnic groups. Islamist rebels want to create an Islamist state in the north based on a brutal form of shari'a law, and they use drug smuggling and hostage taking as financial means. The government in Bamako wants to keep the country together and limit Tuareg and Islamist influence, but also has complicated and corrupted interests in the conflict itself. What can be done to solve the crisis, and what can stability practitioners use to counter instability and sources of insecurity? What can history and a deeper look at ethnic and racial grievances tell us? From the origins of Al-Qa'ida in the Islamic Maghreb (AQIM), to the reasons for the coup d'etat in 2012, to the underpinnings of colonialism that helped shape Tuareg demands, *Understanding Mali* takes a holistic view of the current conflict in Mali, explaining all variables and perspectives in a clear and concise manner.

Machiavelli and Political Conspiracies

The Struggle for Power in the Italian Renaissance *Routledge*

The theme of conspiracy is central to Machiavelli's writing. His work offers observations and analysis of conspiracy as part of the armoury of the Renaissance politician. Surprisingly, the theme has not yet received the attention it merits. This volume corrects an interpretation which reduces Machiavelli's position to one of censorious observer of conspiracies. Quite to the contrary, as Campi demonstrates, Machiavelli developed an anatomy of conspiracy and provided a practical manual for coup d'état" and violent seizure of power.

Strategy

The Logic of War and Peace *Belknap Press*

Uses an abundant variety of historical examples to examine the true nature of strategy and demonstrates the failure of commonsense logic in particular strategic concepts

Africa's Embrace

Africa's Embrace is author Mark Wentling's fictional account about the adventures of a young man from Kansas who travels to Africa and becomes caught up in a mystical larger-than-life adventure. This well-crafted novel revolves around the main character of "David," who abruptly leaves his home in Kansas in order to follow his destiny in Africa. Upon arrival, he is renamed "Bobovovi" and chosen by the spirit world to ride the "mountain moonbeam" and become "transformed" by an ancient baobab tree. Bobovovi does his best to make his goodwill prevail, but his humanitarian work is fraught with unforeseen, unusual challenges. He moves from one surprising adventure to another, telling an African story unlike any the reader has ever heard before. Africa changes him in unimaginable ways, and those changes are inculcated into the reader and teach a variety of lessons. Although *Africa's Embrace* is literary fiction, the novel is, in actuality, a thinly-veiled autobiographical account of the author's three years of working in an African village back in the 1970s. The clever and gripping plot of the novel is a powerful, emotional story, combining magical realism with a colorful description of the practical challenges of living and working in Africa. The book introduces a cast of unforgettable characters and forces the reader to enter deep into the heart of Africa, and to consider the spiritual implications of introducing change. Mark Wentling is one of the rare people on Earth who has visited or worked in all fifty-four African countries.

The Anti-coup

The Two Vietnams

A Political And Military Analysis *Westview Press*

The Coup

Tactics in the Seizure of Power *Praeger Pub Text*

This book provides a paradigm of the coup and provides a historical basis for that paradigm that is unsurpassed in its objectivity and research. The author of this book has spent over a decade living and working with military and political figures throughout Latin America. His book is both an educational and an exciting peek into the dark world of military subversion by an observer who has seen it first hand. The coup d'etat has defied all attempts at rational analysis. This is hardly surprising, in that it is born in darkness and very frequently dies there, only coming to light in the last moments before either a bloody defeat or a stunning success. The participants on the military side are frequently reluctant to discuss their activities, even long after the fact, and their civilian victims can usually only guess at what happened to them. Previous studies have often been heavily tainted by the politics of the writer, categorizing the coup as a product of class struggle, the cold war, or outright foreign intervention by the superpowers. The author of this book has spent over a decade living and working closely with military and political figures throughout Latin America and has used the fruits of literally hundreds of encounters (ranging from simple interviews to longtime friendships) to piece together an insightful picture of this nebulous but very real phenomenon. He has identified the motives of coup plotters and the means by which they go about building the coalition necessary to overthrow a government. Rather than use hypothetical cases to illustrate his points, he has drawn on history to demonstrate how coups succeed and why they fail. This book is both an educational and an exciting peek into the dark world of military subversion by an observer who has seen it first hand.

Napoleonic Leadership

A Study in Power *SAGE*

'Whether you are studying leadership, or doing leadership, this is a rollicking good read, and a fabulously rich book.' - Ken Parry, Professor of Leadership Studies and co-Director of the Deakin Leadership Centre, Australia He came to France an immigrant and left an exile - but, in a career spanning just 35 years, he became general, consul and emperor. How did Napoleon's name come to be synonymous with brilliance, legend and glory despite displaying opportunistic and manipulative tendencies, and repeatedly deserting those that followed him? 200 years after his defeat, what lessons can we learn from his successes and his failures? As the world marks the 200th anniversary of the Battle of Waterloo, this fascinating study on leadership and power tackles the questions that continue to intrigue and mystify. As now, power was gained and held by political manipulation, patronage, fear, putsch, charisma, popular vote and the new idea of meritocracy. Through the inclusion of *Reflections and Questions*, Jones and Gosling also highlight some important lessons for current and future managers and leaders. Visit the authors' website www.napoleonic-leadership.com for a Diagnostic Exercise, Power questions and Chronology of Leadership.

Interventions 2020 *Polity*

The death of God in the West was the prelude to a formidable metaphysical soap opera which, according to Michel Houellebecq, continues to this day. Christianity's masterstroke was to combine

a fierce belief in the individual with the promise of eternal participation in Absolute Being. When that dream failed, various attempts were made to offer the individual a minimum of being. The latest of these attempts is advertising, which aims to arouse desire and transform the subject into an obedient phantom of becoming. But like all previous attempts, this skin-deep, superficial participation in the world fails and unhappiness and depression continue to spread. However, we can all produce a cold revolution in ourselves by stepping outside the flow of information and advertising. We just need to take some time out, unplug the television, turn off our iPhones, stop buying stuff, stop wanting to buy stuff, temporarily detach ourselves and adopt an aesthetic position in relation to the world. We literally just need to stay still for a few seconds. In this collection of texts and interviews that stretch over three decades, from 1992 to 2020, Michel Houellebecq explains and elaborates his point of view, discusses his novels and addresses a wide range of topics from politics, religion and literature to suicide, euthanasia and paedophilia. An indispensable book for anyone interested in the work of one of the most widely read and controversial novelists of our time.

The United States and Military Coups in Turkey and Pakistan

Between Conspiracy and Reality *Springer*

This comparative study explores the involvement of the United States in four successful military coups in Turkey and Pakistan during the Cold War. Focusing on military-to-military relations with the US in each country, the book offers insight into how external actors can impact the outcomes of coups, particularly through socialization via military training, education, and international organizations such as NATO. Drawing upon recently declassified government documents and a trove of unexplored interviews with high-ranking officials, Ömer Aslan also examines how coup plotters in both countries approached the issue of US reaction before, during, and after their coups. As armed forces have continued to make and unmake Turkish and Pakistani governments well into the twenty-first century, this volume offers original, probing analysis of the circumstances which make coups possible.

Low-intensity Conflict in the Third World

A common thread ties together the five case studies of this book: the persistence with which the bilateral relationship between the United States and the Soviet Union continues to dominate American foreign and regional policies. These essays analyze the LIC environment in Central Asia, the Middle East, Southeast Asia, Latin America, and sub-Saharan Africa.

The Israeli Army, 1948-1973 *Rowman & Littlefield Pub Incorporated*

A Diplomat's Handbook for Democracy Development Support *McGill-Queen's Press - MQUP*

In recent decades, the conduct of international relations among and within states has been very considerably altered. Today, the content of these relations relies as much on international professional and civil society networks as it does on state-to-state transactions. The role of the Internet has been fundamental in widening communications opportunities for citizens and civil society, with a profound effect on democracy transition. In consequence, diplomacy has taken on a much more human and public face. Twenty-first century ambassadors and diplomats are learning to engage with civil societies, especially on the large

themes of democratic change — an engagement that is often resisted by authoritarian regimes. A Diplomat's Handbook for Democracy Development Support presents a wide variety of specific experiences of diplomats on the ground, identifying creative, human and material resources. More broadly, it is about the policy-making experience in capitals, as democratic states try to align national interests and democratic values. The Handbook also documents the increasingly prominent role of civil society as the essential building block for successful democratic transitions, with each case study examining specific national experiences in the aspiration for democratic and pluralistic governance, and lessons learned on all sides — for better or for worse. While each situation is different — presenting unique, unstructured problems and opportunities — a review of these experiences bears out the validity of the authors' belief in the interdependence of democratic engagements, and provides practitioners with encouragement, counsel and a greater capacity to support democracy everywhere.

Psychology of Intelligence Analysis *Pickle Partners Publishing*

In this seminal work, published by the C.I.A. itself, produced by Intelligence veteran Richards Heuer discusses three pivotal points. First, human minds are ill-equipped ("poorly wired") to cope effectively with both inherent and induced uncertainty. Second, increased knowledge of our inherent biases tends to be of little assistance to the analyst. And lastly, tools and techniques that apply higher levels of critical thinking can substantially improve analysis on complex problems.

Military Coups in Sub-Saharan Africa

How to Justify Illegal Assumptions of Power

This book is a comparative study of military coups between 1958 and 1980. Africa south of the Sahara. It also provides background information on the causes of some refugee exoduses, for example, from Zaire, Sudan, Burundi, Rwanda and Uganda. There are three parts. The first deals with different theories concerning 'coups d'état' on a general level. The second part is an empirical review concentrating on the justifications given by military leaders immediately after their interventions. The third part analyses the attempts by the military to explain their involvement in politics. The author concludes that military coups rarely take place during periods of social unrest and that the military are very sensitive to civilian intrusion into what they regard as primarily military business.

Technique Coup D'Etat - The Technique of Revolution *CreateSpace*

This is a great book from someone who's been inside of coups and other forms of political engineering. The book goes from Napoleon's coup to how others used his (and others such as various Romans) actions as an example. This leads to the beginning of the modern coup with the Russians as envisioned by Lenin and Trotsky. This book is definitely one of the best books written on the subject and is quoted in many other works such as Edward Luttwak's "Coup d'Etat: A Practical Handbook." Also, if you interested in the fine points and historical matters of the Russian Revolution from the inside it is also quite informative in such matters.

Killing Hope

US Military and CIA Interventions since World War II *Zed Books*

In Killing Hope, William Blum, author of the bestselling Rogue

State: A Guide to the World's Only Superpower, provides a devastating and comprehensive account of America's covert and overt military actions in the world, all the way from China in the 1940s to the invasion of Iraq in 2003 and - in this updated edition - beyond. Is the United States, as it likes to claim, a global force for democracy? Killing Hope shows the answer to this question to be a resounding 'no'.
