10 Community Problems and 10 Solutions. We all live and interact in communities of various sizes. Our towns and cities are the communities most people think of, but we also work in communities, go to school and/or take our kids to schools that have their own community structures,

and we usually belong to various social and recreational communities too.

10 Community Problems and 10 Solutions - One Community Global

And finally, Sustainable Communities are competitive communities that can stay productive and generate jobs for members of the community. Building inclusive, resilient, competitive and sustainable cities and communities is essential for achieving the Sustainable Development Goals by 2030, and eliminating extreme poverty and boosting shared prosperity at the local, regional, and national levels.

Sustainable Cities

and Communities - World Bank

The opportunities for applying nature-based solutions to companies, cities and communities are seemingly endless. In the built environment, for example, nature-based solutions include managing rainwater through green roofs, ponds and wetlands to improve the climate resilience of buildings and infrastructure.
