English Grammar A Function Based

The approach to language and grammar that motivates this book is unabashedly functional; grammar is not just a system of empty rules, it is a means to an end, an instrument for constructing concise coherent communication. In grammar as in music, good expression rides on good form. Figuratively and literally, grammar like musical form must make sense.

The difference between structural-functional and generative models is that, in generative grammar, the object is placed into the verb phrase. Generative grammar is meant to

be used to describe all human language and to predict whether any given utterance in a hypothetical language would sound correct to a speaker of that language (versus constructions which no human language would use).
