The M40 uniform was the first design change in the standard army uniform. It differed from the M36 only in the substitution of feldgrau for the bottle green collar and shoulder straps, which began to be phased out in 1938/39, though most combat examples show this variation appearing in 1940, hence the unofficial M40 pattern. The troops liked the older

green collars, and M40 (and later) tunics modified with salvaged M36 collars or bottle-green collar overlays are not uncommon.
