Rising Tides was an interesting book to be reading this weekend, the fifth anniversary of Hurricane Katrina. Set in South Louisiana in 1965, much of the action takes place in the days just before Hurricane Betsy, New Orleans' previous worst hurricane ever. Rising Tides is the sequel to Iron Lace which I reviewed not long ago.

Rising Tides is an extensively researched and engagingly written examination of the many factors that have shaped ecological thought. Challenging the basic assumptions of the western world-view, it exposes the fundamental flaws in a political, economic system that believes in unlimited economic growth within a finite world and has confused financial worth with the real wealth of the natural systems which we are all dependent upon.
