exercises Chapter 1 Energy, Environment and climate second ...

The greenhouse effect: an energy balance and natural effect of the environment. The Sun emits shortwave radiation. And this radiation is invisible to the gases in the troposphere (just like the glass in a greenhouse). The Earth tries to cool off by sending heat energy in the form of longwave radiation.

What I'm watching: Myron Ebell, director for energy and environment at the conservative Competitive Enterprise Institute, who was on the Trump transition team in 2016, says he hopes the Environmental Protection Agency will roll back its 2009 scientific finding that concluded greenhouse gases endanger public health and welfare. That finding underpins all federal climate regulations.
