General workshop risk assessment

The aim of this framework is to provide a clear and standardised guidance in order that social workers feel confident and clear about their roles and responsibilities in the assessment and analysis of risk. Risk is the possibility that an event will occur with harmful outcomes for a particular person or others with whom they come into contact.

1.3.3 Risk Assessment Guidance

Social work is based on transformational interpersonal relationships which means social workers are well placed to work alongside people who use care and support to enable positive risk taking. The international definition of social work references the need for social workers to understand, assess, balance and work with risks.

Working with risk - Skills for Care

The point of use risk assessment enables organisations to conduct risk assessments of the many small, one-off or infrequent jobs that are undertaken on site e.g. maintenance

tasks. Due to their nature, these assessments are often not covered by an existing, traditional risk assessment and organisations can leave themselves liable by not assessing them.

Risk Assessment Book (Pad of 30) — SG World

John would find it difficult to see where the decimal points were placed. John's reading difficulties were a consequence of Meares-Irlen syndrome¹⁰ – the numbers appeared to move on the screen. Dyslexia underpinned his poor performance at work,

which was probably further exacerbated by his manager's behaviour.
