The Filter Bubble What Internet

A filter bubble has been described as exacerbating a phenomenon that has been called splinternet or cyberbalkanization, which happens when the internet becomes divided up into sub-groups of like-minded people who become insulated within their own online community and fail to get exposure to different views. This concern dates back to the early days of the publicly accessible internet, with the term "cyberbalkanization" being coined in 1996.

Filter bubble - Wikipedia

The internet is no longer a free, independent space. It is commercially controlled and ever more personalised. The Filter Bubble reveals how this hidden web is starting to control our lives - and shows what we can do about it.
