Evaluating Health Promotion Programs

Once the assessment and planning phases have been conducted, and interventions have been selected for implementation, the final stage of designing a workplace health program involves decisions concerning the monitoring and evaluation of program activities. Just as assessment data are critical for evidenced-based program planning and implementation, so too is evaluation to prove that workplace health interventions have been effective and build the business case for continuing them.

Evaluation | Model | Workplace Health Promotion | CDC

Evaluation of health promotion interventions is essential in order to collect evidence about the efficacy of a program, identify ways to improve practice, justify the use of resources, and identify unexpected outcomes. This paper clarifies the role of evaluation as a crucial component of health promotion interventions. Moreover, it summarises the key elements of the most widely used planning/evaluation frameworks necessary for constructive evaluations of health promotion interventions and ...
