Enlightenment Governance And Reform In

Enlightenment, Governance, and Reform in Spain and its Empire, 1759-1808, offers a new interpretation of political reform in Spain and its American empire in the second half of the eighteenth century. It examines the intellectual foundations of commercial, administrative, and colonial policy during the tumultuous reigns of Charles III (1759-88) and Charles IV (1788-1808), and explores how Crown reformers employed both the ideas of the European Enlightenment and Iberian juridical concepts to ...

Challenging the caricature of cameralism as a German, land-locked version of mercantilism, the volume reframes its importance for scholars of the Enlightenment broadly conceived. This volume goes beyond the typical focus on Britain and France in studies of political economy, widening perspectives about the dissemination of ideas of governance, happiness and reform to focus on multidirectional exchanges across continental Europe and beyond during the eighteenth century.
